I'd rather not, thanks for the offer though OP.

Maybe one day I'll take a look at it, but probably not, because you make pennies from sharing links.

Decent looking website but it's not very professional, with a generic copy-and-paste ToS containing nothing pertaining to the specifics of the website. I'll try it when someone else posts that they've been paid.

Im sorry but this script is being sold n code canyon if you want your website to take off i would not use scripts which other users can buy.Once your site starts getting bigger other users will set up similar sites.I also seen the script posted on script mafia.

There is no way you saw the Site on CC or any other site since it's selfmade
