Hi

Today I want to introduce our Paid To Post forum FORUM FOR U. The link is <http://forumforu.net/>

How it works ??

We have a point system in our forum and we call it FFU Coin or FFUC. Our member will receive FFUC for their every thread and reply.

The conversation rate of FFUC to USD is FFUC \$100 = \$1 USD

Most attractive thing is that ,,,, you will not need any good skills in English. Just post your referral links and payment proofs and get paid daily.

We also have daily and monthly contest for our member where you can earn some more money. In the other hand we have a marketplace for FFUC where you can buy sell exchange virtual goods and services by using FFUC.
