Thread: [take a webpage from another website , and show it in my website](#)

sharkito - October 28, 2014, 7:13 am

hello how i can take a webpage from another website , and show it in my website please ? and thanks you

there are 1 guy who saying me use iframe but how it's works ??

Frosteh - October 28, 2014, 8:26 am

The basic HTML markup for an iframe is

```
<iframe src="WEBSITE"></iframe>
```

Where WEBSITE is the URL of the web page you want to display in the iframe.

Iframes have lots of different properties you can read about them here -

http://www.w3schools.com/tags/tag_iframe.asp

Use this one to show it in full screen

```
<!DOCTYPE html PUBLIC "-//W3C//DTD XHTML 1.0 Transitional//EN"
"http://www.w3.org/TR/xhtml1/DTD/xhtml1-transitional.dtd">
<html xmlns="http://www.w3.org/1999/xhtml">
  <head>
    <title>Test Layout</title>
    <style type="text/css">
      body, html
      {
        margin: 0; padding: 0; height: 100%; overflow: hidden;
      }

      #content
      {
        position: absolute; left: 0; right: 0; bottom: 0; top: 0px;
      }
    </style>
  </head>
  <body>
    <div id="content">
      <iframe width="100%" height="100%" frameborder="0" src="http://SITE.COM" />
    </div>
  </body>
</html>
```
