Thread: [LethalInjection Keylogger - FUD 100% // Stable // 100% Customizable // 2v ready!](#)

Oxycodone - May 31, 2010, 1:03 am

I am authorized to sell this product source and binaries.

Original Coder:
jacktheripper

Coded in:
Visual Basic 2008 Express Edition

Original Thread:
<https://hackforums.net/showthread.php?tid=436201>

--

Ever wanted a keylogger that has everything you want? That includes everything that other loggers have and more!

Our Keylogger (LethalInjection) has OVER 80 DIFFERENT CUSTOMIZABLE OPTIONS! Lethal Injection has the ability to steal multiple types of accounts and saved passwords, record keystrokes from their victims. We have the most advanced keylogger on the market. You can run commands to all your keylogger servers (victims) from a URL. This can be used to install other software on a victims computer or remove and uninstall the server from their PC! And more!

Lethal Injection had up to 2 backup log sending options and 1 main sending option:

PHP (Like istealer and many other stealers / loggers)

FTP (Upload to your webhost)

Email (Send logs via email from any smtp server)

If the 1st form of sending fails it will move onto the 2nd form and then the 3rd form of sending if the other selected didnt work.

Screen Shots:

Uploading Menu Consist of:

Order of backups and uploading form

Log Sending Interval

Email Settings (Smtp Server, Smtp Port, Smtp Email, Smtp Pass)

FTP (FTP Server , FTP Username, FTP Pass)

PHP (Website URL)

Testing Ability For Each Uploading Option

Startup Menu Consist of: Notify On Execution & Stealers via Email (Send stolen information with notification via email when server is ran on a victims computer)

Notify On Execution & Stealers via FTP Send stolen information with notification via FTP when server is ran on a victims computer

Notify On Execution & Stealers via PHP Send stolen information with notification via PHP when server is ran on a victims computer

Disable Registry (Disable regedit so they cant edit registry keys and values)

Disable Task Manager (Disable task manager so they cant end the process)

Disable Command prompt (Disable CMD aka Command Prompt so they cant execute commands)

Add To startup via startup folder (A list of pre-listed location folders to add to for it to startup when computer is turned on)

Add to startup via registry (Add itself to startup via registry and able to customize the registry name to your liking !)

Copy Options (Copy itself to folders on the computer)

Copy to location (list of folder locations to be copied to)

Copy to custom location (Select a custom copy location)

Copy to a backup location (A list of pre-defined folder f it cant copy itself to the 1st location have it try to do it to a 2nd location)

Copy to a custom backup location (If a listed backup location isnt what you want and want to place your own location you can place it here)

Stealer Tab Consists of: Steal FireFox (All versions)

Steal IMVU (A online game community to chat ect..)

Steal FileZilla (A FTP Client)

Steal Pidgin (A Chat Client that can contain passes to MANY email options like msn ect..)

Steal No-IP (A client that redirects the no-ip url to their ip used for rats ect..)

Delete options after stealing (Option to delete items after they are stolen)

Delete FireFox Cookies

Delete Internet Explorer Cookies

Delete Steam Catche

Delete FireFox Master Password

Delete Google Chrome Cookies

Delete Opera Cookies

Delete Safari Cookies

Features.

3 Uploading Choices. 2 Backups.

Email

Custom SMTP server, custom recipient.

FTP

A folder is created for each new 'victim', so your logs are never unreadable.

PHP

Just 1 URL and PHP code enable you the pleasure of not having to ever reveal your details.

Startup Customization.

Notification

Send a log to email, FTP and/or PHP with information about your 'victim'. Stealer logs are also included here.

Disabling

Disable access to the Registry, Task Manager and CMD in just 3 ticks.

Add to Startup

Choose from either the Registry or the Startup Folder so you never miss a keylog.

Copy Options

Copy to a pre-defined location, or specify your own. On an error, the backup copy location is triggered. If that also results in an error, the Temp folder is used. Talk about double protection.

5 Stealers. 7 Deletions.

Stealer List

- Firefox

- IMVU

- Filezilla

- Pidgin

- No-IP

Stealer logs are incorporated into the Notification log - no more flooding.

Deletion List

- Firefox Cookies

- IE Cookies

- Steam Cache

- Firefox Master Password

- Google Chrome Cookies

- Opera Cookies

- Safari Cookies

Logs Layout. Now made by you.

Active Window Customization

Ever thought, "fuck - that's an ugly distinction for the window title", or "why are the logs so close together"? Well, now you can choose what goes between the window title, as well as the number of line breaks between them.

10-Key Customization

Too many people ask, "wtf does [LB] mean?". Well, it means Left Button, or Left Click. But hey, you don't need to ask anymore - now you can customize the text that's displayed for 10 keys, including the parenthesis that surround them. Awesome.

Optional Melt. Multi-File Binder.

Optional Melt

Decide whether you want to melt the server (copy it to a specified location and run from there instead) immediately after execution, after a specified delay, or simply not at all.

Multi-File Binder. All Extensions

Want to bind as many files as you want? How about throw in that .mp4 file too? Easy. Right click and add the file - it's that easy.

12 Antis. Multi-URL Downloader.

12 Antis. Purely Optional

Just want to avoid one anti-virus/malware spotter? Or maybe 2, 3 or 4? Well, instead of just saying "hey, you get 12 antis - here's the list.", you can tick which you want - enjoy.

Multi-URL Downloader

Feel the need to randomly swamp your victim with multiple trojans? Well, instead of only letting you download just one file like most keyloggers, I've given you the option of downloading from as many URLs as you want. Freedom is great, eh?

Screenshots. File Pumper. Assembly Editor.

Screenshots]

5 extensions. 35% quality range. Get to know your 'victim' even better.

File Pumper

Server too small? Want to get the exact same filesize as some other file? Enter the desired server size, and you'll get just that, give or take a couple of bytes.

Assembly Editor

Credits to fLaSh for his .dll - customize the assembly of the server to increase stealth.

Remote Control. Website Blocking. Even More Tools.

Remote Control

The tutorial is built into the builder, so I'll give you a brief overview.

Upload a .txt/.html/readable file to your server, give the builder the URL to it, write commands to it, and the server will execute it. Easy as that. Currently supports "cure", "download" and "re-steal".

Multiple Website Blocking

Why do so many other keyloggers allow just one URL to block, or only predefined ones? It really isn't hard. Type the URL, hit enter and it'll get added to the victim's hosts file when the server starts up.

USB Spread

When a USB is inserted, the keylogger is copied to the drive, and an autorun file is written to execute. Easy spreading is easy.

Don't Show Hidden Files and Folders

Show hidden files and folders is unchecked. Increases stealth.

Turn Off UAC

UAC is turned off on restart.

Icon Changer

Credits to fLaSh for his .dll - change the icon of the sever to any .ico you feel like.

ActiveWindowSort. Genius.

Chronological order is old. Nobody wants to see the exact same window title repeated.

ActiveWindowSort sorts your window titles via their process - and makes sure it only ever shows you the same window title once. This way your logs are easy to read through - something is either there or it isn't - no need to search through the entire log when you can search just the process/window title. Easy as that. Note the difference:

Lethal Keylogger Logs

Spoiler ([Click to View](#))

[img]<http://img210.imageshack.us/img210/3555/logrepeats.png>[/img]

Lethal Injection Logs

Spoiler ([Click to View](#))

[img]<http://img411.imageshack.us/img411/9625/lognorepeats.png>[/img]

Colours denote different window titles.

MSN 2-Way Logging. Get the Full Conversation.

Hate only seeing your victim's side of the conversation? Not understanding anything? Now you can view the entire conversation - what your victim and the person on the other end have to say. All built into Lethal Injection.

MSN Logs

Spoiler ([Click to View](#))

<http://img27.imageshack.us/img27/1815/msnlogsexample.png>

AntiRepeat. Remove the Annoyances.

Seriously, what is the point of seeing Left-Clicks repeatedly? There really isn't a point IMO. That's why I've implemented AntiRepeat on 9 keys:

9 Keys

Spoiler ([Click to View](#))

[img]<http://img293.imageshack.us/img293/2635/wasteofspace.png>[/img]

Escape, Page Down, Scroll Lock, Page Up, Num Lock, Print Screen, Left-Click, Right-Click and Scroll-Click.

versus

[img] <http://img526.imageshack.us/img526/7847/spaceminimization.png>[/img]

The point of this is to leave you with clearer logs. Nobody wants to look at 4712347239854 lines of [LB] in their logs. Everybody's happy with just one in a row.

Credits. These are awesome people.

Cyb3rDev1L - coding, support, stealers.

m0n - support.

fLaSh - assembly + icon editor.

DarkSel - firefox stealer.

newbie223 - firefox stealer converted.

Aeonhack - keyboard hooks.

Deathader - read/write to resources.

daneasaur - support.

Cheers to the most legit person on HF. (Other than Omni, of course.) (;

Oxycodone - May 31, 2010, 5:18 am

Thanks for the vouches ect..

Im going offline for a bit, (5 am) ill be back to sell this in 3-5 hours.

Add me on msn: endoflife@live.com and we can get started a.s.a.p

eXosphere™ - May 31, 2010, 11:48 am

Vouch, Really nice logger :)

Boomer2u - May 31, 2010, 11:52 am

I vouch for Cyb3rDev1L amazing coder, legit dude!! As far as the program its wicked sick has so many options and it works great!! GL with sales sir!!

EDIT: BTW very nice sales thread well detailed with lots of good information!!

Su?ernatural - May 31, 2010, 12:01 pm

Best Keylogger on HF.

Good Luck on your sales.

FuzzySock. - May 31, 2010, 12:03 pm

Cyb3rDev1L is legit!! Very good guy!!

nack - May 31, 2010, 12:09 pm

Vouch for you, great guy, great logger.

Yes - May 31, 2010, 12:39 pm

vouch for cyberdevil, old me a basic plan for a brilliant price, helped me set it up and. brilliant keylogger definatly worth the money!

Oxycodone - May 31, 2010, 1:01 pm

Basic plan was sold to jeeven95, im still selling guys so hit me up!

Gold-Lust - May 31, 2010, 1:47 pm

Vouch for Cyb3rDev1L , bought Lethals keylogger , alot of features and he helped me to set it up via

teamviewer, very fast and reliable Support :) keep up good work !

Oxycodone - May 31, 2010, 1:48 pm

Sold basic plan package to Gold-Lust.

Im ready for more sales if anyone wants to buy!

xhtmlphp™ - May 31, 2010, 1:55 pm

Vouch for cyber, fucking awesome guy and wouldnt hurt a fly. <33

Oxycodone - May 31, 2010, 2:55 pm

Thanks for the vouch!

Next customer gets a discount on their package!

Sketchy - May 31, 2010, 4:23 pm

What is up? lol. Vouch for dis guy. Just bought the Keylogger and it PWNS!

Oxycodone - May 31, 2010, 4:25 pm

Thank you AmlHacking, Still for sale! And its still 100% FUD

We ensure it to be fud for a long time! We used methods to prevent AV's from detecting it !

Apple - May 31, 2010, 4:30 pm

I'd like to know how you get the MSN logs, seems to be worth the price.

Good luck with sales.

Oxycodone - May 31, 2010, 4:33 pm

The MSN 2 way conver gathers the "Open" MSN Chats and then gets the info from the (aka the chat logs)

The brilliant idea was 100% Coded by jacktheripper.

birdisinfire - May 31, 2010, 5:28 pm

ahaha, cyberterrorist mate :)

Looks fucking great, and your cyberdevil still be FUD after 5000 dload :)

You should give me a basic for breaking my pc down with your test on msn :x

I fucking waste 90\$ in that fucking erebus shit who will never work bcause the support is a big deep shit!

Oxycodone - May 31, 2010, 5:34 pm

@birdisinfire

I took down CT already?

Yes we have the best possable way of keeping files FUD for longer periods of time

And what? I never used cebreus cuz i cant port forward lmao

birdisinfire - May 31, 2010, 5:41 pm

Erebus is RAT code in JAVA : <https://hackforums.net/showthread.php?tid=351781&highlight=erebus>

Arent you banned from CT since 3 or 4 month?

Oxycodone - May 31, 2010, 5:52 pm

Im banned from CT since X-Mas lol.

But back on topic trying to sell this!!!
Hit me up if you want to buy!

birdisinfire - May 31, 2010, 5:58 pm

I want to buy it so bad, but the problem is that I waste all my money (90\$ xD) on that fcking erebus shit

Oxycodone - May 31, 2010, 5:58 pm

refund it lol since it didnt work ask for refund ?

birdisinfire - May 31, 2010, 6:05 pm

Its 2 weeks ago and the dude looks like an ass, I'm sure that he wont refund me

Oxycodone - May 31, 2010, 6:08 pm

File a complaint then lol.

Well tell me when you want to buy ill be here

birdisinfire - May 31, 2010, 6:18 pm

Could you help me out with that complaint stuff.. I'm not as good you in english.... ive got a buddy next to me helping me type... he isnt always with me...

Oxycodone - May 31, 2010, 6:24 pm

On paypal file a chargeback on him

birdisinfire - May 31, 2010, 6:35 pm

will try that, if I buy th klogger will I need to wait 3 day for it ?

Oxycodone - May 31, 2010, 6:46 pm

No i trust you lol so dont worry.

GUYS STILL SELLING THIS! ADD ME ON MSN!

?erfo - May 31, 2010, 7:47 pm

just bought Platinum, great service all though team viewer. vouch!

Oxycodone - May 31, 2010, 9:15 pm

Thank you,

Still selling guys!

PI3 - May 31, 2010, 9:20 pm

thanks! legit vendor for these items! and good support aswell with the setup! NOOB FRIENDLY!

Oxycodone - May 31, 2010, 9:31 pm

Thanks for the vouch dead.

Framed - May 31, 2010, 11:02 pm

Vouch for Cyb3rDevil, great guy, and is very polite over MSN, glad we're friends. :)

DingoEgret - May 31, 2010, 11:13 pm

Vouch for cyb3rDevil. Helped through the whole process. Was very nice and prompt with the

service.

Oxycodone - May 31, 2010, 11:13 pm

Sold DingoEgret Plat package for 35\$ via paypal.

I am going to bed at the moment, and will be glad to handle all request when i wake up!

Server scan still 100% FUD!

Oxycodone - June 1, 2010, 4:20 pm

Back, Hit me up for sales! Just scanned server and its still 100% FUD!

Now giving away manifested prilages stub's if needed

Cunt - June 1, 2010, 8:23 pm

i hate this guy

not really :P i love him 100% legit :)

Oxycodone - June 2, 2010, 3:20 pm

Guys im back online!

Bought some offshore hosting and a new implemten HWID system, and update system will be implemented next update!

Bugs will be fixxed also!

Contact me if you want to buy.

All customers will recive free webspace.

Oxycotton - June 2, 2010, 3:22 pm

Guilt - June 2, 2010, 3:35 pm

Vouch for Cyb3r, seems like a great guy! :-)

Aeonhack Archivist - June 2, 2010, 3:38 pm

Big vouche for Cyb3rD3v1L. He has helped me countless times with many issues and he is a trusted merchant. I have bought many things from him in the past and he is an all around great person.

Oxycodone - June 2, 2010, 3:46 pm

Prices are now lower!

A discount of all prices besides server package is now 2 \$ cheaper!

Each user gets free offshore hosting to host all his files needed!

HWID Implement system will be added by the weekend!

grimshaw123 - June 2, 2010, 5:32 pm

just got this from Cyb3rDev1L ...fast response and good support. Thanks - will be back soon

Oxycodone - June 2, 2010, 11:12 pm

Guys this is still for sale!

Prices been lowered so its the best time to buy it!

Jacktheripper is on now so he can help with support also!

x2 the support.

Site = 10% complete and will be done by friday!

So hurry and reserve / buy your copy!

Once new update occurs prices will go up!

Boxxy - June 3, 2010, 5:37 pm

Vouch for him, awesome guy, trusted, i love him :]

Su?ernatural - June 3, 2010, 5:42 pm

It has many features is it very stable?

Oxycodone - June 3, 2010, 5:53 pm

Yes read the vouches its stable, i will make it more stable & have more and improved features next update weekend

shanker - June 3, 2010, 6:18 pm

I vouch for him, Good guy.

Oxycodone - June 3, 2010, 6:31 pm

Thanks shanker for the vouch.

Guys i got hosting now but im wanting to upgrade to a dedicated server!

Need sales & prices reduced!!

Embrace The Martian - June 3, 2010, 8:41 pm

I've know Cyb3rdev1l for ages he was one of the reasons I joined.

I vouch for him he is totally legit.

Oxycotton - June 3, 2010, 8:43 pm

Looks like a greaat logger... i just don't have the money! :(

dirtyouth561 - June 3, 2010, 8:45 pm

i vouch! very legit seller!! good luck with ur sales bro!

Oxycodone - June 3, 2010, 8:46 pm

Thanks for all the vouches, Still selling

PayPal got limited so i will trade the logger for someone to 100% verify paypal.

Samuell - June 3, 2010, 8:54 pm

In my humble opinion, way too many options on the builder :P. The more options you have, the more vulnerable you are to failing.

Oxycodone - June 3, 2010, 9:11 pm

Well 1st:

The options are so users can customize it as much as possible and not get confused

2nd

if you talk to any of our customers you will see that they are satisfied on how stable it is, and how well it performs

We want to supply users with the best of the best! So we are trying to make as much options for:

Stealth

Stability

Notification / Log sending.

Many users complain about

"Whats [LB] mean?"

So why not have them customize it?

And how will this make it fail?

With enough time we make this the best of the best. We ensure

Stability

Performance

Access

ect..

We don't joke at all.

PM any of our customers and see!

Oxycodone - June 4, 2010, 3:28 pm

Discount for ub3r / l337

Uber: 3 dollars off

Leet: 2 dollars off

Prices will go up!

Still FUD!!

Portal progress : 60% DONE

lyncsta - June 5, 2010, 12:36 am

Vouch for Cyber! Trust him with my life good luck

*xD

Oxycodone - June 5, 2010, 1:11 am

Thank you lyncsta!

Currently fixxing bugs.

Next update should be tommarrow.

Ive got coders working on the webportal

Total:

Stub Fix % Complete = 80%

Webportal % Complete = 75%

Our webportal will consist of:

- Home

- Client Area (Able to check for your specific DL to your LI, shows your registration info)

- AutoBuy system

- If payment reversed app will close A.S.A.P

- PayPal For autobuy, LR will be manually.

- Admin panel

- Access to editing users , info, access to app ect..

- Staff pages & contact

- Shows all staff & their emails for contact & their position on the team.

- Support

- Will soon have a online support

Price updatings?

When 2nd version released prices will go up by 5\$

Server only will go upto 5\$

Buy now and reserve your copy for a low price!

GeneticError - June 5, 2010, 6:49 am

Bought from him few days ago and had no problem :). Big vouche for Cyb3rD3v1L...

damag3 - June 5, 2010, 7:35 am

I would like to buy a server if thats ok, pm me when your available to do a deal :)

Oxycodone - June 5, 2010, 12:22 pm

Im available now.

Add me on msn and ill PM you:

endoflife@live.com

damag3 - June 6, 2010, 3:22 pm

[\[IMG\]http://img203.imageshack.us/img203/3822/whyxs.png\[/IMG\]](http://img203.imageshack.us/img203/3822/whyxs.png)

Why are my logs like this had a few the same

Oxycodone - June 6, 2010, 4:27 pm

Alright im on MSN with you, problem should be hopfully fixxed.

In 2v we will fix all these

Oxycodone - June 6, 2010, 9:23 pm

All issues & problems should be fixxed now.

2v should have most of these items fixxed.

The progress of 2v: 80%

HACK ROOT - June 7, 2010, 12:12 am

VOUCH for this GREAT Keylogger

Oxycodone - June 7, 2010, 5:36 pm

Thanks for the vouch, guys i wont be able to get on today so please talk to jack about all support.

-Thanks

rapzx - June 8, 2010, 9:33 pm

vouch for this guy , 101% legit , anytime you need help , he is there for help // thanks again

Oxycodone - June 8, 2010, 9:36 pm

Anytime guys!

Please note: I have finals this and next week, once 2v comes out i will update everyone.

Oxycodone - June 10, 2010, 6:59 pm

Bump,

2v portal is now ready!

2v will be released to all customers on : Saturday, June 12th

Samuell - June 10, 2010, 8:38 pm

Cough Nice keylogger, but would be about 100 times better if it had a sexy GUI.

[\[Click to View\]](http://img192.imageshack.us/img192/3685/uploadingstartupstealer.png)[img]http://img192.imageshack.us/img192/3685/uploadingstartupstealer.png[/img] - This hurt my eyes at 10:00pm ;)

Vipermakd - June 10, 2010, 11:09 pm

if i get some money i'm gonna surely buy this one first...

Framed - June 11, 2010, 1:01 am

Vouch for Cyber, great person, and is very nice. :)

Oxycodone - June 11, 2010, 1:08 am

Thank you classical.

Sold Reseller & source to: Framed.

Kotei - June 11, 2010, 1:13 am

Cyber if you would like any help with GUI's PM me and I will help. :D

Oxycodone - June 11, 2010, 1:15 am

PM'd you, in 3v i will update all gfx ect..

So you can help with that

Kotei - June 11, 2010, 1:16 am

Okay added you on msn. :D

Oxycodone - June 11, 2010, 1:20 am

Accepted, we are talking now about it all.

Samuell - June 11, 2010, 8:12 am

I've talked to Cyb3rDev1L multiple times on MSN; he seems pretty legit, very polite and well mannered :P.

Oxycodone - June 11, 2010, 3:57 pm

Thanks classical.

Alright guys, if you purchased 1v a update is now goin in effect to 1.5

Tommarrow 2v will be released.

You will not be given 2v unless you have 1.5 already

Contact me for the update!

Oxycodone - June 13, 2010, 1:23 pm

1v stub bugs have been fixxed.

2v will be delayed (I messed stub up when coding) and im fixxing it.

So please wait.

2v is still available

devilofwar - June 22, 2010, 9:25 am

Hello where have you ?

You said you'll fix the problems but nothing received

rapzx - July 23, 2010, 6:04 pm

he is not coming online anymore

Cz2103 - July 26, 2010, 7:20 pm

What the hell happened to the login system?

hasn't worked for a month..

Oxycodone - July 26, 2010, 7:22 pm

Add me on msn: webmaster@inaboxproductions.ws

Ill explain the issue & fix it a.s.a.p im trying to get the database sorted.
