Thread: [Minecraft Server Votes - GET POPULAR NOW!](#)

Shrooms - October 29, 2014, 4:38 pm

Hello HF, today I will be offering my service which offers you a chance to finally get that player base you're looking for! Make bank of your members from those amazing donation packages! ?

What are you buying?

You will be purchasing votes for your server, on a Minecraft Server Listing site of your choice. These can be anything you use, from Planet Minecraft to MCServerStatus. If you're interested PM me before making an order so I can confirm that the website of your choice is supported

Prices?

I cannot offer you a fixed price, as it can vary, but you will not be shocked. It is cheap.

PayPal only

So you're intersted?

Fill in this order below and send it to me via PM, I will get back to you as soon as possible.

Link to desired page to boost:

Amount of Votes:

(100 VOTES IS MINIMUM! \$10 For this)

More Information:

Spoiler ([Click to View](#))

Charge backs will result in a scam report instantly. All proof will be in the PMs so you cannot win.

If you are banned on the boosted site, that is not our fault. You should only do 50% of your daily votes to be guaranteed no ban

Votes are NOT instant, they take time to come through to keep ban risks very low.

I wonder if this is bought then resold through a site or something?

I'm sorry, I will not be sharing my method on how I am doing this. ?

Shrooms - October 31, 2014, 5:36 pm

To my knowledge PMC, and probably the rest of the voting websites, reset their votes at the start of a new month.

So if you wish to get popular easily this month, make sure to place an order soon as the votes will be resetting very soon! If you're interested make sure to let me know that you want the votes to start after the reset please! ?

What he means to say is: "That's exactly how I'm doing it, but pretending that it's not."

I'm not denying I'm not doing that, I'm simply saying I'm not going to tell you how I am.

I can guarantee you most service shops like mine or anything like it uses that method. ?
