I really like it, smexy AF :D
to get a good and HQ thread design first of all you have to explain clearly and tell them the font color background color . and also make a example design using paint that where u want them to use contact details and other things etc

this is how they can provide you with the best result
also the designer should be HQ

PMED you with the creator profile

Hi. I am interested in some mentoring services. I would like to know how much and if you have the time to help me set up your Silent Exploit once I purchase it and also help me get my RAT up and running properly.. I have everything setup I just don't seem to get any servers... I don't know if im crypting wrong or what it is. I have the same problem with the keylogger.
send me a pm when you get a chance
