Thread: [Residual Income Online](#)

4matc - October 30, 2014, 11:39 am

Im interested in making money online. I usually buy broken phones and fix (watch step-by-step Youtube videos) and sell on eBay. I would like to start a residual income of so sort but confused as to where to start. Sooo many options and sooo many work. Best advice I can see is try everything yourself. Guidance would be much appreciated.

I don't mind working for it or putting time into it, but don't want to waste my time. If someone has something that could possibly help please pm me or reply. I don't have money to pay for training but can promise that if you help me make money and get started that it will be returned very generously.

Give a man a fish, and he eats for a day.
Teach a man to fish and and eats for life.

Swing Trading in the Forex market can perhaps be some form of "residual income". I got into it a few months ago and starting to see hefty profits with a small amount of capital (used leverage).

how much did you use to start up? I'm really really low on funds and would like to build up enough to do something with and actually use the money to make ore money. small profit is still a profit that I can re-invest.
