Thread: [RAT SETUP | FREE CRYPT | \\$5 | VOUCHERED | SUPPORT | NOW WITH PRIVATE ICON PACKAGE!](#)

Zelix - November 1, 2014, 8:58 am

Who am I?

Hello,

I am Zelix, I have many years of experience in the RAT section.

I am running a [RAT Helpdesk](#) with over 225 replies and I enjoy helping people.

Why should you choose us?

So, do you need help regarding your RAT? Do you have some problems? Don't know how to crypt?

Well, this is the perfect service for you. We're affordable, but we still deliver the best quality service you can get.

I wonder from where you got the idea to start this service. Hmm...

You know, just because you have a service doesn't mean that everyone who dares to have the same service is blatantly stealing your idea, right? Setups existed LONG before yours.

Regardless OP, looks like a nice service. I'll think about it for the future. :)

I had this idea in my head since I started HF, I just didn't have enough time because of other projects. I can even show you logs of old chats if you really want to.

You probably think that I got the idea from you, but that's what you think so sorry if I 'offended' you in any way with this service. ?

Thanks for your kind answer, you can always get a discount for being my 1st customer. ?

It's fine, it's just funny that since my service went huge, everyone started doing the same thing. But hey it's business.

I don't recall seeing any other Mentoring services, not even setups before I started my own however.

Royal Bash - November 1, 2014, 9:24 am

Vouch for Zelix, he has experience for sure!

I saw that too, but I had the idea already when I started my helpdesk (may), it's pure coincidence I think.

Thanks for being chill about it though. ?

Thanks for the vouch Royal, I appreciate it.
