Thread: [Looking for partners looking to make money. Easy work, easy pay.](#)

I'm going to try to keep this nice and simple.

- If you play PC games, you're qualified.
- If you like making money, you're qualified.
- If you have multiple accounts for game websites(Origin, Steam, etc.) with value, you're qualified.

If you meet all three requirements, I highly suggest you keep reading.

I am looking for a few partners as of right now looking to profit from merely sitting at their computer, browsing as they usually do. Your job will consist of posting and moderating. NO, you're not moderating a forum, and NO, this is not going to take as long as you think it's going to. I've been working with this for about a week, and I can guarantee money will be made if you put in your effort. I do 85% of the work, you do the other 15%(clicking and being your usual keyboard-warrior self). Best part is? We split our profits; 60% me, 40% you.

Don't believe me?

And that's just one example.

Do I actually pay out, you may be wondering.

One of my old partners who's a member here at HF. He can post here if he wants, but we made 200\$ within 72 hours.

PM me if you're looking to get started making money that you didn't think possible until now... Spots are limited.
