Grammar 7/10

The eBook isn't really that neat, the grammar is not bad, a few capitalisation mistakes but overall the grammar is easy to read.

Content: 8/10

There is two methods in the eBook I received. One of the methods only provides how you will start making money but doesn't show how you will actually receive the traffic which is disappointing. You will have to setup your own Niche without any help from this eBook but hopefully the Skype support may help.

The second method is a gaming method, which can include a investment for higher profits but isn't

needed. I can't say too much because I might give it away.

Originality: 7/10

One of the methods I think I might have seen before but they are mentioned in a different way than the public method.

Layout: 7/10

I wouldn't say it's neat, everything is in one font/size and it's all in one column basically like a newspaper :) But it isn't hard to read.

Overall: 7/10

If you put work into this, you will be able to make money but you will need to know how to get traffic and setup a niche yourself as it's not listed on the e-book.
