Thread: [WHH Section Guidelines](#)

King Cin - November 2, 2014, 7:47 am

A lot of threads don't belong in this section.

I don't know if someone posted about this already, I haven't been here for a while. Even if it has been posted before, this is a reminder.

Does your thread belong in this section?

BSOD Issues [X] - [Windows Section](#)

Malware Infections [O]

Compromised Website [O]

DDoS Issues [X] - There isn't much you can do, your best shot is reading older threads.

Internet Connectivity Issues [X] - [Networking](#)

Covering Tracks / Detracing [X] - [Anonymity](#)

Some of those are worth discussing, e.g: Some trojans keep disconnecting your internet connection. If you're sure you're infected, feel free to post here for assistance. If you're not sure, visit the Networking section and open up a thread there.
