Well try the Wal-Mart method. Go in front of the store and hold up a sign saying "Selling nudes for \$ and giftcards." It is highly unsaturated and its the holiday season so there should be lots of people there. Or you can try panhandling. ?????

JK: you just need social engineering skills and great prices

I made close to \$300 on Halloween by just using the kik method for 6hrs. LOL
My prices are always \$10-30 but i tell buyers to feel free to suggest more. That's how i earn so much

Next time use the search bar.

You will find many chat sites there where you can advertise.
Good luck.
