Thread: [Visual Studio GDI+ Theme \(11 Controls\) \[Updated 06/11/2014\]](#)

Nextrum - November 5, 2014, 11:15 am

Opening Paragraph -

Hi guys, I have noticed a influx of themes that are meant to look just like Visual Studio's IDE. I have worked a little on this through the last couple of day and worked abit on it ages ago. If you use my theme then please credit me. Thanks!

If you have any ideas for new controls and any improvements let me know and I will vet them.

Control Screenshot -

There are a total of 11 controls that are supplied with the theme. These are;

Theme Screenshot -

Here's a overall screenshot of all the controls;

Starting Reason -

I made this theme because I wanted too as I like the dark look of the IDE.

Known Issues & Potential Updates-

Here is a list of all known issues/potential updates with the theme that I will work on to fix.

Add More Controls

Go through and dispose everything properly

More customizability properties.

Allow for form resizing (needs applying)

Work on font changes

Fix issues.

Change Logs-

06/11/2014Added GroupBox

Added TextBox

How to get the theme -

Looks quite nice. I'll be checking this out later, and maybe using it in a program or two, if that's okay?

Michael J. Scofield - November 5, 2014, 2:13 pm

this is so clean and sexy !!

thank you for sharing this theme with us!

Yeah that's okay, all I ask for is credits.

(Nov 5, 2014 12:27 PM)Odus Wrote: [\[CITE\]](#) Your themes are a gift from god my friend! Can I ask a text box from you? Just like the quick launch text box right next to the window controls.

Thanks for the compliment; I cannot believe I didn't think of adding a Textbox before releasing. It will be the next control.

Looks good, as always.

I see some resemblance to your LogIn Theme here.

Yeah it's difficult to not make it look like it as they are similar anyway. I'm trying to design it so they look different but is still a replica to the IDE. With more controls I hope it becomes more obvious.

Thanks for the kind words!

Must say it looks good, simple and great, another great theme by you.

Earn - November 5, 2014, 6:29 pm

Nice job. I also made one a few months ago.

Awesome theme... Looks very similar to VS... ;) would love to see more controls... like Textbox, radio button, check box & groupbox ;)

Kill?Muvz - November 6, 2014, 2:38 am

That. Is. Amazing. I really really like that, congrats.

Giommi - November 6, 2014, 4:07 am

Nice Theme! looks really sexy <3
i think i would use it in future projects

nuk - November 6, 2014, 5:21 am

Dayum.... I really like this....as with all your themes LoL -- This would be great if I had it about a year back for an older project I did for someone. Thanks for making and sharing this homie :)

Nextrum - November 6, 2014, 2:03 pm

Thanks for all of the positive comments. I am planning on adding atleast 1 control a day for around the next week. This will also include optimisations.

Just added

-Groupbox

-Textbox

Very good theme, I would love to see more from you.
I like that progress bar too much.

Rhyno - November 7, 2014, 9:10 am

Wooah. That is the only word in my vocabulary to explain this amazing theme thanks a bunch OP

visionguy - November 22, 2014, 9:33 am

This is awesome! Thanks for the release.

Nextrum - November 22, 2014, 11:15 am

Thanks guys! Not had a lot of time to finish it off due to another project being more important. Will probably push an update this coming week.

+Haze - January 12, 2015, 4:26 pm

Bumping this because this is an awesome theme, and others need to see this shit.

Awesome theme, very clear and nice detail with those scrollbars, but may I ask you for more customizable options or even animations? This might be one of the best themes ever. Keep the good work.

BlackLayer - January 14, 2015, 5:34 pm

looks beautiful, keep up job section vb.net theme! ?

yay goal 1000 post! ?

Shoot - January 14, 2015, 6:50 pm

such an amazing theme, you should add some more controls!

can i add to it if i dont redistribute?

Nextrum - May 24, 2015, 4:23 am

So thinking of expanding theme, is there any controls, that won't take ages to do that you would like to see?

A combo box, check box, or radio button would all be really great additions.

This is some really nice work as is though, thank you for sharing this!

#Kat - May 24, 2015, 9:04 am

listview control seems to be the one that eludes most themes would go pretty decent with this theme

Titan1998 - December 9, 2015, 11:25 am

Hi , Button Have Not Any Texts ?!

4h35i13n46u7 - December 15, 2015, 10:30 am

Wow! I like this. (y) I wonder where you do you people learn to make such things. :3

Rosey Mutiny - May 30, 2016, 12:54 am

I really wish that I knew how to create themes. This is beautiful and simple. Thanks for the share.

jhonth0r - June 3, 2016, 3:10 am

Cooooo themes. thank you for your hard work :)

halearn - June 9, 2016, 6:22 am

Thanks it looks professional however wpf is the real deal

jhonth0r - June 10, 2016, 5:08 am

wow.. awesome theme. thank's m8

Psychogenic - June 10, 2016, 6:13 pm

Getting this every time I try to build a new application.

RS7™ - June 13, 2016, 8:21 am

Is there any c# version by any chance? :)
