What's the guarantee that lifetime will actually be "lifetime"? You could shut down your servers next week unexplained and leave us high and dry, correct? (Not saying you would of course)

But how long could we expect it to last

Knowledge. - January 9, 2015, 1:48 pm

We won't do such harsh things, we have great servers and we do not intend to just disband our project. It'll last for a long time.
