I have purchased a gold plan, currently waiting for it to get set up. Will post back with the results :)

Edit: Turns out it was instant setup :D

Currently looking good. Thanks Yuno, vouch for ChunkNode

Where are these servers hosted? OVH?

Miami - November 10, 2014, 12:31 pm

Still waiting for my server to be set up and login emailed to me for control panel... not instant setup

We are terribly sorry for the inconvenience, it seems our payment module failed.
I've gone ahead and added 2 days to your plan for compensation.

This could be caused by a variety of things, such a memory leaks from outdated plugins etc. If this persists, please submit a support ticket.

I've used the server I purchased numerous hours a day, only like 3-5 people on it though and I must say I am satisfied with what I received. Will definitely buy another package in the future.
