Thread: [Recommend some anime for a anime virgin pls](#)

600 Breezy - November 7, 2014, 3:43 pm

I have never watched anime that wasn't main stream. I loved cowboy bebop, trigun, dbz, yuyuhakasho, attack on titan and a few more on netflix.

Dubs only I can't be asked with subs, anything with gore and sex is a plus.

Uhm, Highschool DxD.

Dubs are with it. 2 Seasons, and has gore + harem.

zyvox - November 7, 2014, 3:45 pm

Sounds like you might enjoy ecchi anime though, check out Highschool DxD for tits and magic (no actual sex though).

No gore and sex but a lot of people, especially if you also like video games, enjoy Sword Art Online. It's also very mainstream and popular, for a good reason imo. It appeals to a lot of people, especially new anime watchers.

If you want actual sex in anime just pick ones from the hentai genre.

Here's a list of some anime that I've watched, that I think you may like, separated by chronological order, with genre tags. As to not flood you with genre tags, I'll limit each anime to three genres. All of these anime have a dub available.

Another (Horror, mystery, thriller)

Black Lagoon (Action)

Claymore (Action, adventure, fantasy)

Death Note (Drama, psychological, thriller)

Elfen Lied (Action, drama, horror)

Guilty Crown (Action, drama, sci-fi)

Gunslinger Girl (Action, drama, psychological)

Mirai Nikki (Action, psychological, thriller)

Soul Eater (Action, comedy, fantasy)

I loled hard at reading the anime virgin part on your thread.

Kid, I suggest you to watch Elfen Lied just like Eternal said.

You could also go for Mirai Nikki.

High School DXD is good too but no sex there.
