Thread: [Carrion - Hackforums multitools \(Binder, Icon Changer and more...\)](#)

Olus - November 9, 2014, 2:14 am

Hey guys ?

I'm making a design hackforums multitools named "Carrion" (Which would include a File Pumper, Icon changer, private webbrowser...)

Have you ideas of features to add ? (I'll release the tool for free)

Thanks you :)

FreeAnneFrank - November 9, 2014, 2:16 am

I think a Binder would be good :D ?

Olus - November 9, 2014, 2:17 am

Okay, I'll add it, thanks for the advice ;)

Hire - November 9, 2014, 2:18 am

Ehm, Username Scraper, IP Lookup Tool, Proxy scraper, internet speed tester or something lol.
Goodluck

Olus - November 9, 2014, 2:20 am

Thanks you for the tips, but I'm french and I don't understand "Username Scraper" ? What is it for ?

It scrapes usernames from example forums, which you can then import into a cracker.

Olus - November 9, 2014, 2:23 am

Okay :) I don't know if I'll add it but I will add the internet speed tester :)

Maid - November 9, 2014, 2:32 am

Sounds like a good idea for you.

You could also try to add:

- Screenshotter
- Encryption Program (XOR)
- Youtube to mp3 converter
- Port Scanner

Have a good day!

Olus - November 9, 2014, 2:42 am

Okay, I'll make the Screenshotter, Encryption program and Youtube to mp3 converter, thanks you dude :)

Olus, you have experience with VB? I would recommend you to make a Forum Destroyer with Multi

Threading, go ahead.
I'll help you out if you want.
