Thread: [What is MSDN account or Bizspark?](#)

SIM-2485481 - November 11, 2014, 6:41 am

How can help me a MSDN account or a Bizspark accepted account ?

Why some people would pay money for these accounts?

I would recommend learning proper English and trying again. ?

Thanks!

Also would recommend you learn how to spell. The English language is tough for you isn't it? I mean, being 14 and all probably doesn't help but you will get there. ?

People would pay because you get a lot of stuff free.

I know someone who is a small developer making apps for the Google play store and apple and has gotten accepted.
