Thread: [How to model a simple minigun in Cinema 4D](#)

Originality - November 11, 2014, 10:08 am

I did a tutorial on my channel for this, so I thought I'd share it with you all! I know many of you are currently learning this program, so I hope you do check it out! It should be easy enough to follow.

Man, I already subbed on you but you make so good things in C4D and Photoshop.

Really nice and sick man, keep on going with this awesome models and 3D stuff.
