Thread: [C# or VB.Net Basic Rat Help](#)

MascHera - November 12, 2014, 3:40 am

Can anyone suggest me any videos or documents about the rat i am going to make on c# or vb.net? The only thing i want is remote webcam. I can give \$50 to the guy who will help me in 3 days.

It seems like you lack programming knowledge. I would recommend you to hire a programmer to maybe create a RAT for you or something..

Hawk HF - November 12, 2014, 8:27 am

It's hard to call it a RAT when all you have is webcam access...

I'm sure you can find the source for by using the search button.

I'm not a freelancer myself for hire, just go to the 'Service Offerings' section and hire someone there.

Also, I would never link my real facebook on a forum like HF ???
