Thread: [Contest As Usual | Normal -> L33t -> Ub3r -> Gift Award -> \\$15 BTC](#)

Nivarka - November 12, 2014, 2:39 pm

Well done to [God Complex](#) who won this competition, and is now upgraded to l33t.

It's BAU for me, so I feel like giving something back to the community.

This contest is open to all members, and most importantly, is USEFUL to all members too. This competition will be open for 2 weeks, closing 26th November 2014.

Here's the prize, in case you haven't already gathered.

Normal -> L33t

L33t -> Ub3r

Ub3r -> Gift Award

Gift Award -> \$15 BTC

Yes, I'm aware that these prizes vary in value. The monetary value is not of any importance to be in this contest. I am purely looking to give back to the HF community. I would otherwise donate directly to [Omniscient](#), but on this occasion I feel like contributing directly to one of you, and hopefully enhancing your experience on HackForums. Naturally, L33t -> Ub3r only applies if you're approved by Omni. If not, you'll skip a tier.

To enter, simply tell me why you should be awarded this prize. What would it mean to you? Where do you aim to be in this community in a years time? Whoever stands out to me the most and truly makes me feel they deserve to win will be awarded with their prize.

Business As Usual ?

Justin Timberlake - November 12, 2014, 2:47 pm

You should give me \$15 because I'm poor and I only have 5 shekels left.

zSerity - November 12, 2014, 2:48 pm

I think I deserve the \$15 btcz because then I can add it to my marble collection of other btcz and hang them on my wall.

It's cause im sexy, and I'll give you a little bowchicka wowo if you give me \$15 BTC

Buffalo - November 12, 2014, 2:52 pm

Well niv, sexiness as usual, I deserve that gift award.

gg

Sir Robert Bryson Hall II - November 12, 2014, 2:53 pm

I think i should get an award because i suck the best dick.

Karnaugh - November 12, 2014, 2:54 pm

Wow, really nice from you to make a giveaway like this!

Nivarka - November 12, 2014, 2:56 pm

Just for clarification, if you've got the Gift Award but you aren't ub3r, you will receive the next tier of upgrade, NOT bitcoin.

xHAXORx12 - November 12, 2014, 3:18 pm

I would love the \$15 of BTC since i am new on HF and short on BTC.

I plan on buy and learning on various things such as HTTP & IRC bots, also crypting/spreading... also i will be writing FREE hacking tutorials on any knowledge i know or have shared with me that i think would be

helpful to the community. So basically the \$15 BTC would be getting spent on other HF vendor services/products :)

1D5yc6Lh9oGQjKWuA9jeJrqMuvvvVezmWz - thanks if you choose me ;)

Edit: I would love an ub3r upgrade if thats what L33ts get instead of BTC reward :P

Corporate Slave - November 12, 2014, 3:18 pm

I deserve the gift award because I have worked hard on the community and as a part of appreciation, I must get it.

But I prefer btc because I am running short of money this month. The \$15 would help a lot in that case..

Good luck to everyone!!

DotPSD - November 12, 2014, 3:18 pm

1KTRfGNzp5vZr7JAczvbxP24h3FUYGmWW

Thank you for this.

I plain on working on new projects such as making my own Crypter in VB which I'm decent at.

Plain - November 12, 2014, 4:49 pm

I would like to try to win the gift award. The reason on why I think you should give it to me is because I have been on HF for a while now and the only type of award I have ever gotten was the award you get for upgrading for ub3r and it would be nice to get something new!

Hope I win, thanks for the giveaway!

Bro? - November 12, 2014, 4:51 pm

i should get the 15\$ btc because i love you

shop1126 - November 12, 2014, 6:30 pm

I would love the Gift Award because although I have only been on HF for a short amount of time but I have already gained so much out of it. I have used HF as a means of business which seemed to

work out great. I learned so much about crypto-currencies and how they function. My general hacking knowledge has increased ten-fold. I can confidently say that there is not a day where I do not go on HF. Even for small things like for the Requests and Free Shit or the Small Favors. I hope to do more for the HF community and the Gift Award would only give me more incentive to do so :) Thanks for reading :D

Banana - November 12, 2014, 6:51 pm

I think I should be awarded this prize of being upgraded to Ub3r for many reasons, one being that I try my best to contribute whatever I can to the HF community. I created a thread giving out my method on how my friends and I have earned paypal \$ and steam items through some sites. The thread can be found here <https://hackforums.net/showthread.php?tid=4494846>

Also, this isn't much but I have done tasks such as clicking adfly links and such as seen here. <https://hackforums.net/showthread.php?tid=4468595>

It would mean a lot to me if I get chosen by you and receive the reward. I have always wanted to upgrade to l33t then ub3r ever since I joined HF in March of 2014. At first, I was pretty much a LQ user, but then I started to become more HQ and giving back to the community after I realized how much the community has done for me. In a few years from this point, I would look back on these days and do a giveaway of some sort (probably like an upgrade/money giveaway like this).

Some more information about me:

I don't have any scam reports open and I never had one created on me. I also browse through HF for roughly 2-3 hours everyday lurking around the gaming section. I also have never been negative repped and I plan to keep it that way by being polite to everyone and doing them favors :) Also, I have been approved for ub3r the other day :D

Good luck to everyone entering in this giveaway and thanks a ton for giving the HF community a chance to win an upgrade!

Scriptful - November 12, 2014, 7:20 pm

Being a Leet would be everything to me, It would dedicate me even more to come and be more active on HF.

Redemption . - November 12, 2014, 7:36 pm

I believe I should get because of the determination I have put in to get somewhere. In the last 2 weeks I've went from a no body to a somewhat somebody and who knows maybe in another two weeks I'll be a some body. Thanks to this forum I have the income I need to support my pregnant wife:). That's why I think I should get it.

Anabolic - November 12, 2014, 7:39 pm

Well heck, I think I deserve an upgrade to Ub3r. I've been a part of the forums for a few months now, have enjoyed the time I've spent here and generally speaking have got along quite well with the majority of the people that I speak to here. I've helped people, been helped, and learnt a lot from the site, and I think it's getting to the point now where I take the next step on the ladder which of course would be to upgrade my HF account to Ub3r status. Hopefully I can do that by winning this contest!

Marshall Mathers - November 12, 2014, 8:56 pm

I would love the Gift award as I think it is a nice award to have, and I really need some more awards.. The sapphire of Ub3r one is getting bored :P

Thank you so much for this contribution to the community. :)

Kind regards,
Kenny.

Jarrett - November 12, 2014, 9:51 pm

I would love to win Normal > Leet.

I have been with the Hackforum community for about 3 years now, and been trying my best to provide throughout the forum.

Winning this contest would mean a lot to me, because out of all the contests I have tried to win I never succeeded.

In a year from now (let alone to this contest) I am trying to set a goal to become Uber. Hopefully I do succeed my goal soon!

Thank you for the contest OP. We all greatly appreciate it! :)

DaChosenOne - November 13, 2014, 12:04 am

I'm entering for Gift Award

Why I deserve this? I help a lot of people and do free giveaways and I'm willing to give more Check [this](#).

And you are a cool guy :)

Thanks for hosting this contest.

Trenbolone - November 13, 2014, 12:14 am

I'd love this because after giving HF a break due to studies I'm planning on finally being a lot more active :")

Cheers and thanks for the contest.

cortz - November 13, 2014, 12:27 am

I'm looking to be upgraded from Normal -> L33T

Why you should be awarded this prize.

I contribute to HF in my own ways. That is, to help make everything look better visually. Whether it's raising the quality of graphical work here or doing it myself (as I did with the L'appel du vide userbar and other's to come in the future ?)

What would it mean to you?

To be L33T is more of a stepping stone to being a recognized member of the community. I mainly prize a L33T upgrade due to the features it offers. Being limited to only 50 PM's is a large inconvenience when assisting others where I end up having to delete important conversations for the sake of having more. Other features as being able to change username, upload avatars, and have image signatures are more of a nobility item to me, I made this account a very long time ago and I've been wanting to brand myself ever since.

Where do you aim to be in this community in a years time?

In a year's time, I'm aiming to become the best (might not be most recognized though) graphic designer here on HF. I'm working hard on improving my own skills everyday and on my free time I help others as needed. As conceited as that may sound I'm rather serious about it and only time will tell if my efforts pay off.

Thanks for the contest.

Mikavv - November 13, 2014, 7:37 am

Why do you deserve this?

Let me first start off by telling you about my self.

My real name is Mika, I live in the Netherlands and I'm 15 years old.

In the couple of years I've been here I've learned so much.

I now watch my punctuation and my grammar has improved a lot.

I've also learned a lot about computer hardware and a lot of general topics.

I like to see myself as an active but more importantly high quality and helpful member.

I try to help out wherever and whenever I can whether that is over the forum, pm or even skype.

Whether that is making people pc builds or helping out with general problems I try to do it all.

I currently have almost 2400 post's in the Computer Overclocking and Hardware section and everyday that'll be more.

Proof of approval:

My last words:

Thank you so much for giving us the opportunity to win such an awesome price!

And good luck to everyone whose going to be entering this contest!

Well in that case, I'd like to nominate [coolman987](#), He has helped me countless times with numerous things, I think he deserves to be upgraded to l33t.

Pow3r - November 13, 2014, 1:44 pm

Because I am nearly at 6 years at HF, have contributed, donated and also bought a gift award for someone else. Thanks OP.

?pth?n - November 13, 2014, 2:29 pm

Hey there!

I'm in for a small chance of the bitcoins.

Why? I'm currently not very active on HF, but if you check out my threads, you may notice that I have helped alot of people and wrote a few tutorials and helpful things.

Anyways, I'm planning beeing more active again, and if everything works out.. something big will happen ;)

That beeing said, my latest and last experience with bitcoins was a bad one. I lost ALOT of money because of mt.gox. I can still check my account on their site and see the balance, but you probably know what happened to them. It's very unlikely that I'll ever see my money... so having a chance to win a few bitcoins is awesome ?

Turtle - November 13, 2014, 2:32 pm

I believe that I deserve ub3r becasue I contributed to Hackercraft by building the new spawn

brian188246 - November 13, 2014, 2:34 pm

I think instead of \$15 BTC you should do another award, like DOGE.
Which is what I will put the \$15 too if I win :)
Thanks!

prada ? - November 13, 2014, 2:36 pm

I think I deserve the \$15 BTC so I can be able to buy more gifts for my family this year as I'm only 17 with no job ?

Paranoid? - November 13, 2014, 2:47 pm

Posting to enter for \$15 BTC.

Reason: I'm a couple of bucks short from purchasing a Mac.

Thanks for the contest and good luck to everybody participating!

Fish - November 13, 2014, 5:37 pm

First off id like to say that [KerozHany](#) deserves to get upgraded to ub3r!

Why do you deserve the award?

I think I deserve the gift award because over the past few months I've pushed myself to helping the community to the best of my abilities, while still being able to have general conversations with users in a kind, orderly manor. Ive been very active on HF for the past few months too! Ive been very nice to the community!

What have you done for the community?

i've been doing some giveaways for the community. I try my hardest to answer questions that other members have. I have some giveaway such as

[How To Earn Free BTC](#)

[Given Out A Free Minecraft Account Generator](#)

[Given Out An Optifine Cape](#)

Why do you deserve this?

TehLynx - November 13, 2014, 7:58 pm

Why you should be awarded this prize?

Yes, I know I am new to the forums, but I hope this does not affect your decision. I feel as I should be awarded this prize because, even though I just joined the community, I already feel like I want to give back to Omniscient for creating such an amazing forum. I would by simply donating or purchasing myself L33t but the only reason why I am not doing it is because I cannot afford it! What this giveaway makes me think of is all those uplifting news posts you see around reddit. What I am talking about is the ones that say something along the lines of: "Saw a cop go towards your car to give you a ticket so I took out my keys and ran towards the car telling the cop I was here." Obviously the person not getting a ticket would be happy about it and would want to help someone else out in case something close to that ever happens to them. Why does it make the think of this? Because I know that these kind of giveaways will influence others to make the exact same giveaways as these. This is how I feel about this gveaway, I know that someday I will be giving back to the community.

What would it mean to you?

I think winning would mean a great deal to me. Once again, I know I am new and have not really had the time to actually browse the forums enough but I feel as I have visited the important areas: The lounge and the Marketplace. Winning this prize would allow me to show everyone how I like the website :D

Where do you aim to be in this community in a years time?

In a year time, which I hope to still be here, I hope to have given back to the community the same way you are and to hopefully have met some new people to talk to. Simple as that!

That is all I have to say for now. Good luck to everyone and I hope you pick me ;)

I would love to win the Gift award. I joined HackForums to learn and to teach, because I love being part of this community full of people with similar interests. Some I can help, some I can learn from. I am a really HQ and active member. I am always helping people out wherever and whenever I can, I am friendly, and I enjoy teaching people. I have written heaps of tutorials on hacking and coding, including the biggest hacking tutorial on hackforums, and a Java tutorial of equal size and quality. I always try to ensure that my posts have perfect grammar, and make sense to anyone reading them.

I am a huge part of the community in many areas - I am in the Omnicoin team, I am in polymath and specialists (head of the specialists coding sector), I am often helping in the Java section, I run the coding helpdesk ([here](#)) and I write many tutorials (check my threads, some are listed below). I strive to learn, I am constantly reading anything I can, but also to teach - so many people appreciate my

clear and HQ tutorials.

The gift award would mean a lot to me. Not physically, because it is just an award on HF, but symbolically, because it would represent thanks for the work I do in the community of HF. I only have the ub3r sapphire, so any awards would be greatly appreciated. It would be really awesome to get something back from the community that I have put so much time, effort and knowledge into, so thank you for this great contest Nivarka.

My work on the HFNT:

Some of my post activity, showing the amount I help in the coding sections:

Where do you aim to be in this community in a years time? I aim to be an even bigger part of the community. My goals are to help OMC succeed and become a really cool currency. I have just finished developing a MyBB plugin for omnicoin which will be added to HF soon, so that is a huge achievement for me. I really hope that I will be able to write more tutorials and help more people with coding and hacking, and I really want to help the Specialists and Polymath with their group activities and projects to help them succeed as groups. One of my goals is to start selling projects on HF and make some money from my skills, but that is more of a distant goal than the others, because for now, I am content to help others for free in my spare time.

I have been nominated for MOTM twice - July 2014 and October 2014. Unfortunately I did not win either, but that is another of my dreams: to win MOTM.

Thanks again, I hope you seriously consider my entry. ?

one more thing about my negative warning/reputation which i got first time till 2010.

i am not afraid to posting or telling it here.

but it is fact that i got this warning because i asked a reputation (i asked for pray and one member complained that i asked for reputation or may be i really asked for reputation :() that is the reason.

i did mistake and i apologize :Oui:

any ways my record on HF is clear in past ?

at last,

I should be awarded this prize because I'm an active member that posts daily and tries to help people as much as I can. I am very educated towards pen testing networks with Kali Linux, so I often try to help people on there. What this award would mean to me is an encouragement on being an even better member of HF. I don't see myself leaving HF anytime soon and I hope to become better in every way to contribute.

cybron - November 13, 2014, 9:55 pm

I want to be a leet because i feel sad when any member provide any kind of free help to me in this great forum and i can't even give them positive rep.

They give me their precious time and i have nothing to give them back. This is the main reason i don't want any other feature of leet. If Sir OMNI agree to at least allow me to add reputation feature i will not ask for leet.

Offcrz like all i will also contribute to this forum.

Gummy Bear - November 14, 2014, 3:57 am

I feel like I should be rewarded with the \$15 because I got a decent amount of giveaways and help alot of people. I've been on HF for a long time and very active. I could really use this BTC for a new game or a new computer to save up.

Yandere - November 14, 2014, 4:05 am

Prize I would like: L33t

I have seen quite a few HQ people already post in this thread but hey I guess I may as well try.

Why I should get it:

I am attempting to get this upgrade a little before from being a high quality member. In the short amount of time I've been on HF I have enjoyed it quite a lot and I have enjoyed the community here as well. I haven't given back a lot to the HF community. But I did give what I could/ when I could.

Some of the tings I have given back to the HF community have been a member contest, a giveaway or two and informing people about a working movie site, a site where you can watch dubbed anime that you can stream on the 360. I am pretty active for a newer/ non-upgraded member imo. (Even though that doesn't mean much I suppose.) But if I do manage to get upgrade I'll be sure to contribute more to the hf community.

And if I do win I'll try and pay it forward and upgrade another member one day. But anyways win or lose im still going to do my best to help out others that need help in this community. OP thanks for giving us this awesome opportunity. Not many people are willing to take out money out of there own pocket to help out the community. So thank you for that!

What would it mean to me: Well it would mean a lot since I'm currently broke and can't upgrade my self. And it would also be an amazing early birthday present for my 18th birthday next month. And I'd finally be able to reward other people for what they've done when they've helped me on here, when I've bought things from people I'd be able to prove with a rep to show they're a legit member or even a scammer.

Where do I aim to be in this community in a year: I hope to be a more HQ member hopefully upgraded, hopefully an UB3R as well, be someone on who continues to help out the community and gives back to it just like you're doing now by hosting upgrade contest, tutorials on how to do things, etc.

Thank you for reading this and I hope to hear from you. :)

And congratulations to the winner of this contest!

I would be thrilled if I won the prize, with the 15\$ I would probably go and buy a nice hamburger with cheese, tomato, and radish. :). Thanks for hosting this.

So, I have been member since 2012 but had some break from the forums some time. Now i'm back, more active than ever and currently i'm saving for buying l33t upgrade. In real life, i'm currently in army and thats why I can't spend my own money for upgrade. I'm using all kinda ppc sites etc. to gain money for l33t, and I have now 6\$ collected. If you could upgrade me, I could use my dollars for something useful like help other members to get upgraded.

Thank you for the giveaway.

Berry Fusion - November 15, 2014, 6:39 pm

I'd love to be upgraded.

I want to be upgraded because it would be awesome to be able to rep users, and help point out LQ and HQ members. Also I want to be upgraded because people seem to respect upgraded members ALOT more, and I want that.

Thanks for the giveaway OP good luck to all (not really I hope I win.)

ImCoolBeans - November 15, 2014, 7:06 pm

Why do i deserve the L33T Upgrade?

I currently don't really deserve the upgrade but i would love to be upgraded to L33T because i have big plans here at HackForums, My plans are to post highly detailed and HQ Tutorials based upon various subjects, Help people out and find solutions to peoples problems posted in the computing section, and share other unique Tips and Tricks here with the community so they can enjoy it!

I hope i get this! If i don't Congrats to the person who does!

asciortino82 - November 15, 2014, 7:17 pm

That's pretty neat bro keep up the awesome job!

PlusnPlay - November 15, 2014, 7:29 pm

This competition is awesome! I think i would be great at L33T, i contribute to hackforums to the best of my abilities (may not be good enough tho haha xD) and help everyone i can help. This would honestly mean a lot to me, i seen a lot of awesome members and they are just damn pretty cool, I strive to be just like them, if not better. As a competition! Bring it on L33T!! :D However if someone else cannot buy L33T because of their financial status, i would feel bad if i got it, because i can buy it with my money and if i don't win this, i'd probably will. But in couple of years time, i am hoping to be a legacy here. Where people will remember my name. To show/share people my knowledge.

Electrolytes Ub3r Upgrade Application

Name:

Ty / Electrolyte

About you:

I am 17 years old, I grew up in a small town in Alberta, Canada. I love going on HF on my spare time and browsing the forum. Snowboarding is my favorite sport, along with hockey and football. I currently am attending my senior year in high school and hope to major in Instrumentation engineering and technology.

Reasons why I deserve to win:

I am active which can be shown through my posts / threads within HF, I'm helpful which can be shown by my tutorials and help services within the ratting / keylogging section of the forum. I have a great and funny personality and I can make anyone's day brighter, By receiving the Ub3r upgrade I am able to help others in the Ub3r / Upgrade only section and in the regular sections because I find Ub3r users have more respect. I have a good reputation and always try to make my posts high quality. I have provided graphics for users if needed and I've helped one of my friends shops by helping advertise for it. Unfortunately I am not financially fit at the moment so it would mean a great deal to me if I won seeing's as how I can not purchase it myself. I really hope I get a chance to show that I am worthy of the Ub3r user group and I wish the best of luck to all the others that entered.

I'm actually not entering for myself. Since I can't afford to upgrade anybody at the moment, I'm recommending [MoonCakeRuler](#) for an upgrade. ProductiveHQ - November 16, 2014, 6:24 pm

I really really want:
UB3R

Hackforums Name:
ProductiveHQ

Link to my profile:
<https://hackforums.net/member.php?act...uid=992850>

Country:
United Kingdom (Born In: Lithuania).

Age:
18 Years Old.

Why I deserve the upgrade:

I think i deserve to be upgraded to UB3R because I have helped a'lot of people with many different problems ad i have done many giveaways and even gave special price's to Regular members and Upgraded, i gave away 2 Netflix accounts that i bought, Steam accounts with all counter strikes and Dota 2, brazzers accounts about 100+ lol. I used to crypt server for free to anyone, help set up rat, key-loggers etc, i created some signatures and i have also created few Lineage 2 servers and gave them tips how to get many people on it, i have received over 20 Skype friend requests and never denied any one of them. I have never broke any HF rules or made any one upset and i never will, if i receive UB3R i could be more viewed at as a nicer person. I respect everyone on Hackforums and not just it. I love talking, discussing, problem solving etc. HF is a great site which i like, i have bought here nice and cheap things already and the Community is cool as well. I can find here all i want. No greedy Peoples and not much Scammers like on other Board's.I respect everyone, my opinion of people isn't based on their L33T OR UB3R status, it is based on them and their personality. I wish to be upgraded because I have been L33T for a long time and couldn't wait for the day I would be able to become a ub3r.

I wish i have had UB3R before so i can help people twice as more because they can see that i am HQ member, the reason i haven't been upgraded is because I do not have that much money as I am 18 and live in the UK. I would like to receive UB3R also to have a more privileges, rate other peoples threads and access the VIP area. It'd also give me a better chance of getting my name known. I'd use it not to give me a higher advantage over regulars, I'd used it to help people. I'd give people reputation that actually worked for it, I won't go wasting it for stupid reasons. I will be able to help more people because of the certain privileges that will be available for me and that I am able to have full Hackfroums experience. believe that I deserve an Uber upgrade as I have demonstrated through my posts that I am a mature, helpful and active user of our forums. I have been contributing to this community through my free services and and member contests.

Thank you so much for this contest, I think you really deserve another huge THANK YOU!.

Crake - November 17, 2014, 2:46 pm

I would like Ub3r because I feel I could be taken more seriously and more thoroughly express my appreciation for others through reputation. I have purchased 2 upgrades for other members (normal to l33t), and I'd like to continue making positive contributions to the community. I help advise many hf members on business and monetization techniques, never claiming profits from said private endeavors.

I can see myself on HF in two years in a Mentor position, helping new coders develop their skills, and advising individuals on how to succeed in a legal and whitehat capacity, and to accumulate personal wealth.

I am a UB3R Upgraded member and i now need to maintain my profile on HF as being a very old member i do not have much reputation on my profile. I am also trying to buy some more awards by selling my services here on HF so that i can purchase awards from the profit I earned.

I also make giveaway threads and do things for people i can do. It would be really helpful for me and my profile to look great. Within the next 1 year i will try to be the best member here on HF and will also come up to the members so that they could recognize me as i am not going to change my username now.

The Wizard of Dos - November 18, 2014, 11:52 pm

Not going to give you some crap sob story, but that BTC award would help me pay for the stuff I buy. I wouldn't have to work as much, thus giving me more time to continue developing on my more HQ content.

For example, I would love to add modules to my [Python Module Spotlights](#), but I'm short on time at the moment. Anyway, hope I win :)

Thank you

Vandie - November 19, 2014, 12:30 pm

So I don't normally enter these but whatever.

I don't post loads but when I do It's normally HQ.

I help out with AA weekly by doing the manga reviews and I would hope that most people here who actually know me would vouch for me when I say I'm a nice guy...

I won't claim to do things that I won't but I will say that I hope to be one of the more well known users in year or two, I mainly come here to relax and talk about stuff.

What else can I say...

I suppose I could say that I enjoy programming and want to one day own a game studio but I'm not even sure if that's relevant.

I am approved for ub3r so no worries there.

Thanks for doing this and good luck everyone.

Signed,
vandie

Scarlett Johansson - November 19, 2014, 12:34 pm

I am not approved nor have I applied for Ub3R so I guess I would be interested in the Gift Award because I don't have any awards and getting a gift from another user that can be prominently displayed on my account would be a reason to stick around a while and prove myself a valued member to this community. It also pretty festive-y looking and with Christmas coming up I think it would good on my profile :) Thanks for running this giveaway maybe when I get rich one day I'll do the same.

Zeeks - November 19, 2014, 3:16 pm

I would like l33t to ub3r because I feel like I would be an upstanding member of HF and I would like to make profit on here and friendships. I will also give you some carrots in hackercraft so yea.. Thanks for your time and consideration.

Rigel - November 19, 2014, 4:27 pm

I would love to get \$15 BTC because I need some money to buy a new wardrobe since I'm transitioning to male. I guess I deserve the money because I help others in the Innuendo section, educating them about transgender people as well as giving them advice about dating and life in general. I've also never scammed or had a scam report open against me when I deal in the Marketplace so being trustworthy must account for something. In a year's time, I hope to be a leader for a group that I'm already a part of or be in the Writers' group once my understanding of the English language improves.

Why do I deserve to be awarded(15\$ btc)? :It's been good 7+ months that I am really working hard to do my best for HackForums. And I believe my work should speak for itself.Let it be the Hacking, I'm willing to help every member no matter if he is ub3r or l33t and I'm always ready to learn something new from there ; I have tried to be active in every section that suits/interests my knowledge areas. Not only this; I am pretty much in to giving quality advises to our members, it can be an issue that they are facing on HackForums or some personal problems pertaining to their life (Only if they are willing to discuss it). Why do you deserve to be upgraded: Because I have been a helpful member here on HF for over 3 years now. I am most active in the Linux, FreeBSD and Unix flavors section as you can see from my tutorials but users focus can vary from one individual to another. I have been active in some other sections but I am mostly interested in the Linux, FreeBSD and Unix flavors section! My main focus here on HackForums is to help people when I can and that is what I have been doing for the past 3-4 years. For that reason I think I deserve an upgrade.

I am trying to be One of those members who are Actively involved in answering Questions, Doubts, to the new users. Since I got my L33T around 20 days back, I haven't looked back. Applied for Ub3r and got selected, didnt waste any time in upgrading myself. I joined this forum over 1.5yrs ago, but wasn't as active as I have been over the past month or so. I deleted Facebook, and now I am full time on HF. I wanna be a Helper, Guide, Somebody people can rely upon when they are down n out.

It's not at all about the money for me, it's all about gaining more and more respect on this forum. For money making, I have other avenues. ?

Everything I have done in the past 1.5 yrs on HF has been for good, except for my first post, which was actually a doubt, and 2 guys negged me. lol

anyway, Good Luck to everyone who participated.

I would like l33t because i want to be a more frequent poster around here :)

Autocorrect - November 23, 2014, 8:26 pm

I'm not entering because I don't really need any BTC and I've already got the Gift Award. (Thanks Instinct!)

But it's great to see some generous contests on here. Great work.

Stoke - November 23, 2014, 8:27 pm

That gift award though, damnnnn.

Tell me why you should be awarded this prize, what would it mean to you? It'd mean a whole lot brother. I promise if I get the gift award, I'll gift some other deserving member the gift award.

Where do you aim to be in this community in a years time? Back selling stuff on the market. Perhaps in a group.

You don't NEED L33T to be more active, or if you do then you probably shouldn't get it. You shouldn't need an upgraded account to be active on the HF. And also L33T doesn't make you "more trusted" if anything that's Ub3r. You get "more trusted" by showing us that you are trust worthy. Being constantly active and HQ on the forums also tells us you can be trusted over someone who isn't.

Ha you don't need any more prizes. Hell your lucky ass won a few contests in one day if I'm not mistaken.

That's a pretty good promise actually.

Pay it Forward Gift Award type of thing.

I would be willing to do the same.

Only 2 more days to get involved with this contest.

Enter now to be in with a chance!

saiyan? - November 24, 2014, 3:13 pm

I would like the gift award simply because I would like to collect more awards. I can't apply for ub3r until 12/09 cause of this warning level. I feel that I have contributed to hackforums a lot & gave away some of my own personal methods for free. In the future I plan to be a highly trusted MM as I'm going to build my trust in these next couple of months, offering a free middleman service. If I win I would be extremely grateful & in the future I will also be kind to others. Upgrading users, buying them awards, etc. Thank you for the opportunity OP.

Nivarka - November 25, 2014, 5:13 am

This contest closes tomorrow.

Be sure to enter now!

Sparkfear - November 25, 2014, 6:16 am

First of all, thank you for holding this contest OP!

A L33t upgrade would mean the world to me. I've been on HF since 2011 and I'm near 2000 posts. I personally view myself as a HQ member, yet I wouldn't brag about it. I love to help out where I can, whether if it is sharing my experiences in the innuendo, iOS section or helping someone out in the WHH it really doesn't matter to me.

The only thing that is preventing me from getting L33t is that I don't have a way of paying for it. I've won a contest before but sadly it was a fake contest, therefor I didn't get it after all.

Thank you for your time reading my entry and I wish the best of luck to the rest!

Tr??e??a??s??u????r??e - November 25, 2014, 6:22 am

I have been on this site for quite some time, longer than most people who will probably post here, and it kind of got away from me for about a year or so. Right when I returned I immediately upgraded to l33t for old times sake. Now, I honestly would just love to have ub3r. I've been approved for a long time but no money to buy it.

Anyway, thanks for the giveaway OP!!!

word for it, read some of his posts and you'll see. He's very much deserving of the Gift award for his contributions and I'm sure he'd be very overjoyed and appreciative if he found out that he had won. Hopefully this post gives him a little more of a chance of winning this contest.

Gracious - November 25, 2014, 6:31 pm

I'm posting to win the gift award.

It would mean so much to me as I barely post but yet, expect such an award to arrive to me as a gift and not have to buy it for myself like all the other people who do so for themselves.

I see myself in a years time as a member who isn't banned or repfucked for obvious reasons that I'm HQ.

If you think so too, Lets close this already and gift the award to me.

DamienVC - November 25, 2014, 10:40 pm

I would love the l33t -> ub3r upgrade since there has been complications and extended deals making it impossible to get me UB3R as soon as I would like. I've given out free methods, marketed a 45+ page method for a cheaper price than it was originally, and even contributed to the forum (l33t) myself. I've wasted money on several eBooks and products, and now will gladly conserve my money as told.

Nivarka - November 25, 2014, 11:05 pm

This competition is closing today. Please get your entries in now.

I would love the gift award because its almost xmas and not going for the pitty here but I wont be getting a gift this year cause all my money is going into saving for a car and intern going to University. Like I said not going for pitty because I know A LOT OF PEOPLE have it a lot harder than I do, but a nice little gift award intime for xmas would mean a lot ?

Yoshi - November 26, 2014, 1:17 am

I would love to win the ub3r upgrade since i have been a l33t for 1-2 years now and would love a new userbar with a blue yoshi.

??G? - November 26, 2014, 1:21 am

Hi, I think I should be awarded the upgrade due to my being very active compared to the small amount of time I have been on HF's.

I have purchased services from about 8-10 HF members so far, with good feedback after I test the software, I do what I can to help the next guy; I also try to help answer questions wherever I can, and be as helpful as possible.

Getting Uber to me as a startup Hosting provider/entrepreneur/avid gamer, it would help promote my name, so people wont be scared to deal with me, giving me more opportunities, while ensuring everyone is happy, due to my quality support.

I am a mature, active, professional; I will be helping keep the forum clean, and active; while preserving the environment aura

In one year from now, I would like to be a moderator, though thats probably far fetched.

Derrick420 - November 26, 2014, 8:12 am

I would like to enter this give away as i have been trying to afford L33T for quite some time now but i am never able to upgrade my account because i have a needy gf and lots of bills. Right now i am really behind financially and dont see me being able to upgrade my account for quite some time.

The winter season had came up and my boss told me the construction has slowed down and that he didnt need me anymore. I really am in a world of hurting as i am currently living with my gfs parents because i was evicted from my apartment. I had to leave most of my belongings at the apartment and the land lord sold them. This little upgrade to L33T would mean so much to me words cannot describe. I have tried making HQ threads in the past and hope to continue doing so in the future. HFs is a very nice community and you learn so much from it and not just about hacking. You learn every day living things. So i wanna say thank you for HF for teaching me various stuff and Thank you to Nirvarka for a chance at getting the L33T upgrade.

Sajuuk - November 26, 2014, 1:35 pm

Awards mean nothing. They're just symbolic of status (as do userbars). Give it to someone who deserves it. Research and view their posts in the section they post most often in. Don't overlook their bullshit.

Not to alter your point of view or anything, but how is someone else paying 25 dollars for your award going to further your progress in life and increase your knowledge?

Asking completely valid questions about one or multiple members' view(s) is trolling now? I thought

trolling was posting ridiculous comments filled with abbreviations and those little keyboard smileys (among other things).

True, but that's not trolling. It's posting off-topic. I'd assume this is where it ends.
