Thread: [Cryptography, Encryption, and Decryption](#)

Tafelpoot - November 13, 2014, 5:42 am

Hi,

I would like to see a request section in the Cryptography, Encryption, and Decryption forum. The reason being every 9/10 threads is along the lines of "crypt my stub". I have posted 2 tutorial threads there, I did try to find them but gave up after 200 pages. Please do something about this.

Aceman - November 13, 2014, 6:36 am

Go to 'Your Threads' under your username in the top left hand corner. You'll be able to find your tutorials there.

Pardon me if I got this wrong, but I think he meant that the Subforum is so full off crypting requests, and not actually serving what it was intended to.

Yes I understand the nature of his suggestion. I am not active in that subforum so I thought I'd at least tell him how to find the threads which he was looking for.

I believe it was to make a sub-section for requests.

Can anyone find it? (I'd look but I'm on my phone, and mobile search is a pain)

Positive Wrote:It's simple: report the "abusive" threads as "wrong forum" and they will be taken care of.

You even said it yourself that reports are being dealt with.

We can't make users use a section right. We can only discipline those who use it wrong.

So as Positive said, just report the threads.
