What goes into our pesto?

Our specially hand crafted pesto first starts off with fresh macadamia nuts slow roasted in a brick oven for a few hours until it's golden brown. Next our organic basil is harvested fresh from the garden.

with in minutes it is blended with our roasted macadamia nuts, garlic, cheese, olive oil and special spices and seasonings until it is a smooth consistency; We quality test our pesto to make sure every batch is constant as possible so you have that same rich taste with every jar.

Our glass jars are then sealed with wax to preserve the freshness of our pesto. The whole process from harvesting to packaging takes less than an hour so we can provide you with the freshest pesto possible

Christmas is almost here! why not order some premium quality Hawaiian pesto straight from Hawaii! Shipping to the US + a tracking ID is free with your purchase ! We use only the freshest, purest, most expensive, highest quality, organic indigence that we have access to to. All basil, garlic, sesonings and macadamia nuts are farmed locally in Hawaii by us! Our cheese is imported from Italy and is hand grated into each batch. Our olive oil is made in Hawaii as well, and takes a long time to perfect that uniform unique taste that only our olive oil has. Our product strives for quality.

I love pesto too ?

Denmark would cost \$24.75 in shipping and 6 - 10 business days to complete.

None of those shipping prices are set in stone as there are probably better deals out there. These prices were calculated using USPS's Postage Price Calculator. If you can find a better rate with a different mailing company please let me know and I will gladly ship it to you using that mailing service if I'm able to access it. ?
