Thread: [Hit Increaser Traffic Exchange Get Free Website Traffic That allows adfoc and adf.ly](#)

Website_Hitincreaseer - November 14, 2014, 6:16 am

hitincreaser.com is a up and coming traffic exchange website similar to hitleap instead of getting users to download a viewer we are browser based so we can run on all os
We have 2k active users and around 1k views being generated a min most of our users are running vps with our site. Our site also works with youtube views

Some stats about the traffic

-

I added a adfoc link and here is my earnings.

This site is similar to hitleap but works on every os due to using the browser and not a exe we also let the user set the referral for the traffic for free unlike hitleap were they make you pay. The site was fully coded by me. Any reviews would be welcome or anything i can change.

Very interesting! Will definitely save it under my bookmarks. Just a quick question, does it cause any type of strain on a website's bandwidth?

Nope it shouldn't do. If you save up a lot of coins or buy them then the max users at any one time would be 300 in till your coins hit 0 ive tested it by adding a domain name which has been hosted on a free host and sending all traffic to it and was fine. No slowness or anything to the domain name.

Quick update we are now allowing adf.ly and adfoc urls so users can now start making money from our site for free.

Adfocus is notorious for refusal of payout after using sites that are "adfoc allowed."
Not sure if adfly is any different, just be careful.

I used Adfocusee with legit traffic they paid out \$50 carried on with legit traffic hit \$100 and got the account banned. Adfocusee is ran by a guy who is in college who cant afford to pay out. He will pay small amounts but nothing big. Our site lets you set the referral for the traffic for free. Unlike other sites like hitleap which charge \$10 a month.If you set the referral correctly adf.ly and Adfocusee wont pick up on it. But Adfocusee is a scam site anyway's

Just a quick update we are now running under a ssl so all info which is used on the site is 100% safe.

Are the 1000 credits used ? or just led in your account? Also have u set the url correct ? Could pm me with a username and ill take a look into it for you?

Website_Hitincreaseer - February 18, 2015, 8:21 pm

Users can now also earn money via referral's if anyone would like anything added which is not added please post here :)

This is a great site, I could be wrong but don't you need to have someone click on your adfly link in order to get the 0.0001 for it?

Yes, yes you do.

And the viewer specifically tells users not to click anything.

And the viewer specifically tells users not to click anything. There were users emailing me saying there was file download sites like share cash links etc so had to make it clear not to download or click anything. All pop outs etc are blocked but u can still click. I have used adf.ly and adfoc and works for both

This is now fixed thanks for letting me know. For some reason the recaptcha app was down so i have taken recaptcha out in till i code my own recaptcha.

We have paid out to a few users who have started referring users to the site hopefully they will post payment proof on our forum soon ?

OP provides an excellent service here... He is also very generous and provided me with an upgraded account and some coins.

Huge vouch for this user.

Trenchguns - February 28, 2015, 7:33 am

Wow, this seems really nice, I'll be sure to check it out.

Rizzla - March 4, 2015, 10:59 am

Vouch for this website, user also sent me some coins to get started.

Website_Hitincreaser - March 16, 2015, 11:31 pm

Thank you everyone we now have 5 windows vps up and running viewing everyone sites so the traffic should start hitting users sites faster. We have also paid out \$1025 this month which hopefully users will post payment proof to the forums soon.

?Pozdrav - March 18, 2015, 4:13 pm

Vouch for this guy, he got me on HF and he's a brilliant coder, I can personally vouch for hitincreaser it has served me well as my traffic exchange site. OP is extremely generous too as well.

Web-Weave - March 25, 2015, 8:06 am

how do you set it up correctly for adfly?

The Judge - March 25, 2015, 8:11 am

So does anyone have earnings with adf.ly?

c??? - March 25, 2015, 6:33 pm

Nice, ill be using this for # and other links hopefully. Thanks.

The hit is like hitleap but free so you can set your referral so you add your adf.ly link then surf / view to gain views to your adf.ly links ? 1 view to some 1 elses site earns u 4 views to your adf.ly link.

prtibeeggee - November 20, 2015, 11:40 am

It's safe for Adsense? Huh?
