Im sorry, you might want to learn how to type properly haha Try using a period or comma at the end of your sentences. Also you might want to add some pictures/proof of the consoles because you just joined the site and you already have negative rep xD

lol dont even now how u get neg rep but you right ill add some pics XD

This doesn't seem very legit. Add a video with your name on a piece of paper or something to make it more apparent that you actually own the console.

He said he has a bypass for halo 3 and 4 lmao. Then he says he has a paid VPN for it and he got free membership to get free games. Also his spelling is horrendous

How does a red pixel determine whether or not he's trusted? If you look his rep clearly says "All your posts are LQ, I will change this once you improve some posts. EDIT: I think it may be trying to communicate, not too sure" which has literally nothing to do with him being a scammer or not
