(Nov 15, 2014 11:48 AM)botrus Wrote: [\[CITE\]](#) I was able to pickup a copy of this ebook.

It's very easy to read. The layout is simple. It gives you the facts you need to know and also the tools you need to get your goals. I didn't know about a few of these tools that this book talked about and I checked them out after reading the book.

The book is not very long just have all the information in 1 place

The book has a good layout as of what to do and what not to do.

It's good for people who want to start losing weight and are unsure what to do or what to eat.

The Skype support is also really good as the owner is very friendly and helpful

8/10 Book

I will take a review/vouch copy if there is one still available.

I'm highly active in Health Wise so I'll know whether these methods are worth buying. Thanks bro. ?

Vouch for my buddy. Ever since I've met him he has always given me support on anything I needed, and he will no doubt give excellent support to anyone who buys this ebook. And just for \$5 it's really cheap. GLWS bro.
