Thread: [Scammed by Europe , 50 Euros , UID = 1404526 , Ub3r Member , +236 REP](#)

iSevere - November 17, 2014, 4:13 am

I am sad to announce i was scammed from user Europe .

I am posting my reputation as i am making this thread because these users tend to send people to rep fuck .

My reputation : Spoiler [\(Click to View\)](#)

Already gave me -3 because i destroy his profil . He dont understand he will be banned for this he is doing

[Image 1 Click Me](#)

His profil : <https://hackforums.net/member.php?action=profile&uid=1404526>

What happened . I needed to put some money on lol account and i couldnt because in my country i dont have PSC for this specific server and i made a thread asking for possible solutions .

Thread link : <https://hackforums.net/showthread.php?tid=4538537>

He then peronal messaged me saying he could do that for me . I send him 50 euro PSC but he now doesnt respond my messages and dont give me money as we agreed .

Attention : Big message (2 images)

Spoiler [\(Click to View\)](#)

[Image 1 Click Me](#)

[Image 2 Click Me](#)

Extra new : Paysafecard photo that is real and also +date of bought : Spoiler [\(Click to View\)](#)[Image Of CARD Click Me](#)

In his last message he agrees and trying to find the card to continue paying me .

[Image Click me](#)

I think 2 hours passed and he is not answering any of my new messages and he logged many times after this time being online .

The funny thing is he wants to make it through HF which means he is very sure nobody can ban him or catch him . Examining his rep i saw many -3 or neutrals that he is trying to scam people but he still out there with very good rep and nobody doing anything . This user has big activity in league of legends section and i would like to make a thread there warning all people if nobody ban him . I would like to see what is he going to ansvere this thread .

If i can provide something more just tell it and i will . If he decide to give money back i will be pleasure to have them and close this thread . But it's scam not to answere someone when you read his message and it's about his money .

Too bad nobody cares . That's why he is scamming . I should start scamming too ... people just dont care in this community .

Extremely legit Scam Report.

Relax mate, I know that you are frustrated.

Higher upgraded people and hopefully even Mentor/Staff will notice your Scam Report.
I cannot believe that such a user is out there scamming people and is still on a +236 Rep. That is sick.

iSevere - November 17, 2014, 12:47 pm

Yea i know . Hopefully people will notice and will ban the user .

Meow - November 17, 2014, 12:56 pm

Looks legit to me, hope it will get resolved! ?

Stelio - November 17, 2014, 1:16 pm

Griev?us - November 17, 2014, 2:05 pm

Legit scam report.

Solid information and on-site.

Hopefully it gets resolved.

Hunting Rifle - November 17, 2014, 2:05 pm

I want to see how he is going to respond to this.

Kids - November 17, 2014, 2:06 pm

Legit scam report!

Sad to see you got scammed OP.

FrankServices - November 17, 2014, 2:09 pm

Looks legit, however we should wait until Europe's reply. I still don't get why someone would scam for 50\$ since he already paid the same amount to become ub3r, looks like people like to self-destruct.

Surpass - November 17, 2014, 2:09 pm

This is about as legit as a scam report can get. Everything is on-site too. Hope the scammer gets

banned soon.

Sawada Tsunayoushi - November 17, 2014, 6:25 pm

Such a disgusting user.

I have seen him around in the sections, and I expected him to be a good user.
I take that back now when I know that I am wrong.

Completely disgusting. I hope he gets banned.

I don't understand the meaning behind this. The scamming report is as legit as It can be, also everything is on site. What's the meaning of having to wait for him to admit it? It's obviously never going to happen.
