Thread: [Visual Studio Community 2013 - The Best No Doubt](#)

Only3 - November 17, 2014, 4:23 am

after checking it i can say this is the best ide u can get for now
u have all what programer need in one place
very low memory usage
lots of code improving etc

<http://www.visualstudio.com/en-us/products/visual-studio-community-vs>

dont waste your time ?

He B TeMy - November 17, 2014, 4:25 am

Better than VS Ultimate 2013, don't think so.

SIM-1456245 - November 17, 2014, 7:10 am

Can you please compare the community version to the other ones, especially ultimate and tell me why would you recommend me switching to it.

I think Only3 is trying to say it is better then the old free version (Express). There is no way they would release a version for free that beats their current payed for version.

The Community version is the same as the Professional version (The one I use).
Ultimate will still be the best.

That's what I thought. I use VS Ultimate 2012 on Windows 7. My PC cannot support any higher ;(

He B TeMy - November 17, 2014, 7:18 am

The community version sounds great, but the one's who have any updated Ultimate version there's no point in switching, only for cross-platform work i guess, can't test it because it asks me to uninstall my current VS version, too much work.

When I try to download it I get an exe file.

You mean, VS community for Mac? You can't, it's windows-only, you can build apps for Linux and Mac tho.

I've got a license for VS13 Ultimate, I'll stick with that.

Yeah it's going to take months for Microsoft to sort everything out. I would keep on using 2013 until at least beta.

HeisenbergSM - November 17, 2014, 5:00 pm

If Only3 says its the best then its the best!

SaketSaket - November 18, 2014, 3:18 am

I am happy with my VS 2013 Ultimate with Update 4 & i will not downgrade ;)
