FIRST !!! You will need to make only 10 points , add your channel to addmefast then:

Go to youtube settings [here](#)

Then On this section : Subscriber counts

Display the number of people subscribed to my channel

Do not display the number of people subscribed to my channel < Click this and save.

And thats it. ;)

After a while you will get this on addmefast

this is a google pic not mine,,

To Unblock go again to youtube settings [here](#)

Display the number of people subscribed to my channel << Click this and save.

Do not display the number of people subscribed to my channel .

And then hit Unblock on Addmefast...

Use it by your own risk .You could be banned on amf but im doing this about 6 months and im not banned yet.

You can make lots of Subscribers on Youtube with only 10 points lol.

Tell me if this worked here to get this thread alive. ?
