Thread: [HQ Awesome Glossy Button/Banner Tutorial!](#)

ItsFluffy - November 18, 2014, 9:32 pm

I take no credit for making this. I found this and opted to share it with the community so enjoy everyone!

Nice share, Im shure somone will find this useful.
I prefer using CSS for buttons though.

I like the tutorial, but the button looks ugly as fuck.

ItsFluffy - November 19, 2014, 3:32 pm

Lol, it's still a well done tutorial and the guy who made it took 2 days to do it
I thought it was an awesome thing to share and felt a lot of people can use it

Good tutorial but ultimately a terribly designed graphic... thanks for sharing. Maybe as a project you could remake it?

ItsFluffy - November 20, 2014, 1:17 pm

Hm, I could remake but it will definitely take me some time which I'm short on at the moment but maybe in the next week I might find some
