Thread: [Free Crypting \(Need to test crypter\) \[Only 3\]](#)

Lrrr - November 20, 2014, 9:35 am

I do not have any bin to crypt at the moment (keep an eye out for the bot I am working on though...)

But I need to test that my crypter is working as intended.

I will give a free crypt to 3 l33t/Ub3rs.

All I ask is that you let me know a few things:

What was the score of your bin before crypt

What was the score after crypt (should be FUD)

Did your bin function as desired?

Did it run in VM/Sandboxie as expected?

I am not an asshole, and will not be binding my own shit to your crypt. I simply need working bins to test the crypter.

Sent you a PM, want to do this :)

Thank you mate

Heroc - November 20, 2014, 9:44 am

i want it going to pm you now btw nice giveaway :)

Thanks guys, crypter works but not as well as I had expected. Will be back when I have tweaked it a bit. Thank you for your help testing.
