Thread: [How to get someone's address really easily](#)

1. DO not do this to anyone on HF.
2. Sign up on a forum (that isn't HF obviously)
3. Make a thread like this <https://hackforums.net/showthread.php?tid=4545886>
4. Send the victim the thread make them enter the contest, wait a bit and make them win.
5. They give you their address
7. ???
6. Profit!

10/10 legit guide.

Although why would you just go on a random forum and pick some random fucker as your target?

you sign up on any forum lol, not choose a random person.

you tell your victim to sign up on that forum so they could win a ps4 or w.e's.

I would like to vouch for the OP this is a great tutorial that has helped me ruin the lives of many. I'm now proud to call myself a 1337 extreme h4x0r that no one wants to fux with. without this guide, I would still be a lame ass kid who never had any friends -- but this tutorial changed me -- im now fucking all the hot bitches I could never get at school. thank you for this tutorial op #vouched

seems legit, but if you get the persons address how would it benefit for you? i know you could swat or dox them, but could you do other things with it?
