Link to Scan: <http://xcscanner.com/scan/pVGJ>

Compatible with : DarkComet, NanoCore, IM3, Plasma RAT, Stealers, Miners, Keyloggers, FormGrabbers, Botnets, and more...

UAC Bypass SE is included, but it's still in BETA, the UAC SE, is included when you active Private Startup or Disable UAC, Soon a real Bypass UAC.

We can test any Program you want before purchasing, just send me a PM with a link of your Program, i'll test it and back to you asap.

We are not actually bypassing Norton Sonar, you can bypass it by pumping your file to 30MB or more, but we are working on bypass without a pump.

We are actually bypassing Nod32, Avast, AVG, Avira, Kapersky and we are currently testing on other avs.

Proof of bypassing :

[Video: <https://www.youtube.com/watch?v=sWfV5pnpZnl>]

[Bypassing BitDefender Video](#)

(Can't add 2 videos in the same thread ><)

=== 20€/Month ===

Payment Methods :

BTC & Paypal (Trusted)

Buy by PM Only

PM Nietzsche for pay by Paypal, and me for BTC.

ToS :

Private Stub for Each User.

1 Refud Every 3 days maximum, on demand.

Limited to 10 users, No exceptions.

We are not selling to beginners.

We have the right to refuse to deal with you.

We have the right to change the ToS at any time, please keep you updated.

No refund, all sales are final.

No chargebacks or instant scam report, and blacklisted from our service and licence banned.

No payment with Stolen Paypals, or Stolen Money.

All informations about your license will be sent to your paypal email.

If you're paying with BTC, we will send you by PM.

No scan on Distributing sites, such as VirusTotal,

No hosting on Distributing Hosting, such as DropBox,

No Crypting Service (free or paid),

Breaking these rules will result to a permanent BAN, and a blacklist from our services.

v0dka

(Nov 22, 2014 03:16 PM)ddvniek Wrote: [\[CITE\]](#) Vouch for Wardow. Delivers quality products! GLWS.

Will post here with crypter feedback and results.

EDIT:

<http://razorscanner.com/result.php?id=646991>

I ran some tests, and this is my review of the crypter:

Execution of the crypted file works flawlessly. Bypassing Windows UAC is very cleverly done with an error message requesting it be executed as administrator.

The GUI is very simple. This is proof that something doesn't have to look good, to work good.

(Nov 22, 2014 05:50 PM)Ignignokt™ Wrote: [\[CITE\]](#) Big vouch for OP.

Good luck with your sales.

~OrwaySoftware

vouch that it does, ill even show you via teamviewer fud and working.

ps. im using nanocore :)

Wardow - November 25, 2014, 4:28 pm

(Nov 25, 2014 05:03 PM)Prestigio Wrote: [\[CITE\]](#) Ok send me teamviewer :)

~OrwaySoftware

I don't know, if it bypass, but let Vodka test, if it do not, i'll look into it like for Sonar Norton.

Kill?Muvz - November 25, 2014, 4:29 pm

vouch for Wardow. Prestige just likes sales trashing because he thinks he's the best coder out there.

Wardow - November 25, 2014, 5:23 pm

Global detection on all stubs, Nod32.

This is because of an include, PM me for a refud of your stub, this will not happen again, because i do not use includes anymore!

Thanks to all customers!

ablationvector - November 25, 2014, 9:45 pm

Just bought the crypter. Will test it to see how it is and post back. :)

Wardow - November 25, 2014, 10:17 pm

Avast, Nod32 and Kapersky PURE, Bypassing Proof :

[Video: <https://www.youtube.com/watch?v=sWfV5pnpZnI>]

(Nov 25, 2014 11:39 AM)Prestigio Wrote: [\[CITE\]](#) Is a bit secret, but i am 100% sure.

~OrwaySoftware

You're wrong, my crypter is not a faked one, like your Dear Scammer.

Added Bitdefender bypass video to the thread!

Captain Steve Rogers - November 26, 2014, 7:32 am

A BIG vouch for this crypter.

Working fine with DarkComet , njRAT , NanoCore & Imminent Monitor.

njRat scan

[img]<http://v2.scan.majyx.net/image.php?id=293615>[/img]

I have tested it and it's runtime + scantime FUD.

GUI : Much better then the old one.

Features :

Private start-up is awesome, tried 2 bot killers but both failed, that's amazing.

Supports .Net - test was successful.

Anti-Sandboxie and melt files works fine.

Has custom injections, You can write path, runtime fud <3

Has build-in scanner so need to open site and all / pay for scan.

I highly recommend this.

Aristocles - November 26, 2014, 7:55 am

Fud, and W????? is a nice person.
Recommend this crypter to all!?
Thanks for the vouch man, i builded his stub the 8/12/2014, we scanned it Today, and it's still FUD.

?Fear - December 29, 2014, 5:43 pm

Does your crypter have EoF support in it?

Wardow - December 29, 2014, 7:15 pm

(Dec 29, 2014 06:43 PM)?Fear Wrote: [\[CITE\]](#) Does your crypter have EoF support in it?
I don't have it for now, i'll try to add it, when i found out how to locate EOF on Files.

SimonSeven - December 31, 2014, 4:13 pm

Vouch for BosonCrypter. My first stub has been FUD for over a week so far and the owner provides great support on Skype. IMO this crypter is too cheap considering you get a private stub!

iamskid - January 5, 2015, 9:10 am

(Jan 5, 2015 10:05 AM)m4Ntiz Wrote: [\[CITE\]](#) I am considering buying this. What other AV's have you tested and what were the results?

It uses RunPE. All RunPE crypters are detected by every HIPS at Runtime. If you use HackForums malware then it doesn't concern you since 99.99% malware that you can buy here are complete shit and are detected at runtime by themselves.

I don't know if malware such as LoadHTTP and Kraken use undetected injection methods though.

(Jan 5, 2015 09:52 AM)darkstrike420 Wrote: [\[CITE\]](#) <http://postimg.org/image/bil4ix61j/>

KIS detected.

This file doesn't come from this crypter man, it comes from a crypter I'm coding.

Aristocles - January 5, 2015, 9:41 am

(Jan 5, 2015 09:52 AM)darkstrike420 Wrote: [\[CITE\]](#) <http://postimg.org/image/bil4ix61j/>

KIS detected. You don't own the crypter

You don't have a licence

No proof that your app was crypted by BosonCrypter

Apps crypted by BosonCrypter are not detected by KIS on Runtime

iamskid - January 5, 2015, 9:42 am

This is the sample the coder of this crypter sent me for analysis.

I don't own this crypter but I own a sample crypted with this.

It is detected at runtime by all HIPS because it uses RunPE.

(Jan 5, 2015 10:33 AM)W????? Wrote: [\[CITE\]](#) This file doesn't come from this crypter man, it comes from a crypter I'm coding.

So? You're saying your private crypter 100% for yourself is piece of shit compared to crypter you're selling to everyone? Nice logic 15 year old kid. Both use RunPE correct? Then both are detected at Runtime by same Antivirus. This applies to every crypter on this forum that uses RunPE.

Wardow - January 5, 2015, 9:50 am

Go away from your sales trash man, I GAVE YOU A SAMPLE FROM A CRYPTER I AM CODING IT'S NOT DONE YET PRIVATE FOR ME MEAN NOT SHARED OR ON SALES, YOU UNDEstand MY FUCKING ENGLISH MAN???

Aristocles - January 5, 2015, 10:14 am

I don't meant to be mean with you though, and I still don't want to. But it seems that Wardow was misunderstood; indeed he is coding a "private crypter" (understand what you want here) and he decided to give you a sample crypted by his private stuff.

Nonetheless it is not a sample crypted by BonosnCrypter.

iamskid - January 5, 2015, 10:15 am

(Jan 5, 2015 11:12 AM)Mr_Anonymous Wrote: [\[CITE\]](#) come on man, stop trashing him. he asked you to stop.

Stop sucking his dick. He is misadvertising his product. The detection is from his RunPE not 1337 hardcore methods.

If he was sure BosonCrypter is KIS undetected I would already have a sample to analyse but he is not sure.

SilverLight - January 5, 2015, 10:16 am

Do you have mental issues?

The detection comes from his RunPE(VirtualAllocEx +WriteProcessMemory and SetThreadContext). This crypter also uses the same combination and 99% other crypters on this forum do too and they all are equally detected at runtime.

Bro learn to code then you will laugh at this Wardow noob.

Wardow - January 5, 2015, 10:19 am

You dont even know my RunPE, if you know my runpe, you must have decompiled it, so, you're in fault here, as it's forbidden.

If you post another time here, i go alert an admin.

iamskid - January 5, 2015, 10:20 am

I didn't decompile anything. RunPE stands for that combination. If you used a different combination then you wouldn't call it a RunPE. HackForums coders are only capable of using RunPE since they mostly copy+paste code they don't understand(just like you're doing now).

You should stop calling it your RunPE since you 100% copy+pasted it otherwise you would have had used a better method of injecting the payload.

SilverLight - January 5, 2015, 10:25 am

lol this Kid putted neg rep on me very funny , lets see.
edit : check your rep.

(Jan 5, 2015 11:20 AM)darkstrike420 Wrote: [\[CITE\]](#) I didn't decompile anything. RunPE stands for that combination. If you used a different combination then you wouldn't call it a RunPE. You do realize that three antivirus software conflict with each other? You honestly have no idea about hooking.. Also who knows what settings you used.

Why do u care about the sales anyway? It says 0 available it means u sold out, why u ripping ur customers by overselling?

Wardow - January 6, 2015, 10:48 am

So i guess the trash is done here, for all who want purchase 2 spots are available.

iamskid - January 6, 2015, 1:25 pm

(Jan 6, 2015 11:48 AM)W????? Wrote: [\[CITE\]](#) So i guess the trash is done here, for all who want purchase 2 spots are available.

When are you planning to stop use RunPE?

Mr_Anonymous - January 6, 2015, 10:28 pm

is there a big advantage to this being limited, i know you said the FUD time can be 10 days+ but unlimited ones can manage that too

just wondering because when i was buying a crypter this one was full so i had to look for others, also when my other crypter runs out would i be able to purchase this? (providing a spot is available)

Wardow - January 7, 2015, 4:31 am

(Jan 6, 2015 02:25 PM)darkstrike420 Wrote: [\[CITE\]](#) When are you planning to stop use RunPE? Stop talk here, i do what i want, and i wont stop using RunPEs as it does bypass most proactive for now.

And i said 10days +

But actually, it's most likely a month.

Mr_Anonymous - January 7, 2015, 4:53 am

so would i qualify to purchase this?

Wardow - January 7, 2015, 5:50 am

(Jan 7, 2015 05:53 AM)Mr_Anonymous Wrote: [\[CITE\]](#) so would i qualify to purchase this? If you have any other questions before purchase feel free to ask.

degado - January 7, 2015, 7:53 am

I like this crypter without even use of it because the owner says what it can do without any bulshet like bypass all and stuf like that.

Wardow - January 7, 2015, 8:24 am

(Jan 7, 2015 08:53 AM)degado Wrote: [\[CITE\]](#) I like this crypter without even use of it because the owner says what it can do without any bulshet like bypass all and stuf like that.
what? Do you mean i say the truth about bypassing avs?

OVH Sas - January 15, 2015, 12:12 pm

Vouch for my man Wardow. Best crypter on the market.

Mist-chaoshackerz - January 16, 2015, 6:59 am

Nice one Wardow, legit work vouch to my friend :D

Zct-xChaosx - January 16, 2015, 9:06 am

If this is still available then I'd like to buy it.

stackoverflowin - January 19, 2015, 6:45 am

Wardow is a very nice person, his product is high quality!

boyzcode - January 21, 2015, 9:29 am

my slice just expired, it worked great, thanks for the service , and thinking of paying for another 1 month

???? - January 25, 2015, 12:11 pm

Vouch for Wardow. Great product man. Good luck with the sales ?

MrOG - January 26, 2015, 9:28 am

High quality crypter from one of the best HF Coders
