SPECIAL PRICE ONLY: \$4.99

Welcome to The Pyramid Profit System!

The newest and simply greatest way to earn fully autopilot money online. This honestly is the most autopilot method out there. This ebook is incredibly powerful. With this you will have people working for you, yeah that's right you'll have people making money for you! Oh and the best part is THERE IS NO INITIAL INVESTMENT. This is a real autopilot business not some silly quick gimmick to make a quick buck like most of what you've been reading out there.

The beauty of buying from me is that I teach you skills that you can not only apply to there extremely detailed method but skills you can apply to business and marketing in the future. You deserve this! You've wasted too much time reading useless information and spending money on the wrong things. After you purchase the ebook NO INITIAL INVESTMENT IS NEEDED, 0, nadda, nil, squat, zip. Don't close this tab looking for an easier way! You've been doing that and it's led to nothing! It's time for a change and I personally will guide you to success!

Grammar: 10/10

I didn't find any mistakes, probably because I don't care about it, because if you can read it without problems the grammar shouldn't matter.

Layout: 9/10

Nice Layout which makes it easier to read it.

Originality: 10/10

I've read more than 300 eBooks and I have not seen this once.

Easy of use: 9/10

It is pretty easy, at the beginning you have to work a bit, but later this whole method can be autopilot later.

Overall: 9.5/10

This method is actually unique and can't be saturated in my opinion. This method WILL make you cash if you take action, if you don't take action no eBook will make you money.

I was given a copy of this e-book for review.
Here's my 100% honest review:

As far as set-up goes:

There definitely is some effort to be put in before you can start profiting big time.
It's not hard at all though, just requires you to try a bit,
and it may take a little bit of time. Pretty much everyone on HF
should be able to complete set-up if the effort is there.

As far as grammar and comprehension of this e-book goes:
On the first read through i completely understand how the method works, what goes into it, and i didn't have to re-read anything.
The idea is so simple, but it has potential to be so effective at the same time.

It is indeed 100% whitehat.

As far as saturation goes:

The niche, as stated in the original post, is growing extremely fast.

Personally, i can see minor saturation possibilities in the semi-near future (4+ months) but honestly it'd take years for this to get completely saturated, if it's even possible for it to get saturated.

So, to sum up this review:

I can say i've seen one method that involves the same idea, but it was nowhere near the potential of this one.

It'll take some time to get going, but once it gets going, it gets going.

The probability of you making your money back if you follow each step and put in the necessary effort is near 100%.

Honest to God, as i started reading and understanding what this method was about, i was like damn this is legit.

Overall rating: 89/100

TL;DR

Legit method with tons of potential.

All it requires is putting in the effort.

I highly doubt you will be disappointed in the purchase of this ebook.

I'm about to go get started on it myself.

Originality: 10/10

I haven't seen any ebooks with this method, the method is actually really clever.

Easy of use: 9/10

Takes a bit of time to set up, but really clear and simple instructions (even a 11 year old could understand).

Hello everyone,

Sin Cara and I have been working together for a while now, sharing ideas and both working with the method described in the ebook he published on here. Basicly, I asked him for a vouch copy so I could review the ebook. I know he has had much succes with this method, which I'm currently working my way to.

Method

Personally, I'd rate the method 8/10. We have both known this method, and both had succes with it. As long as one is willing to put in the amount of time and effort needed to set this up, it will definitely work out.

Lay-out

First of all the thread lay-out: I like it, I think it looks pretty good. The ebook layout: 7/10, looks very decent and contains supportive graphics.

Other things

Here I just wanted to discuss some more pros of the ebook, which I find important. First of all, I love that Sin Cara will be offering 1 on 1 Skype lessons and support, this will make it much easier for everyone who purchases the ebook to get started. I, myself, could have used a 1 on 1 mentor very well, when I started out. The method is good and the ebook goes in depth on some of the ways to make the method work.

Overall it's a very nice ebook! Good luck with sales, my friend!

The overall quality of this e-book is fair. It goes step by step through all the instructions required to get the final outcome that the author has specified in the thread. I am somewhat disappointed that it did not go into great detail on some things, though.

This e-book is very easy to follow; in order to get to the final outcome (as specified on the thread), there is not much work that the reader has to do. All the work that you have to do is covered step-by-step.

The layout is plain and comes with some instructional screen shots/links along the way to aid anyone who might be encountering problems.

The overall grammar of this e-book is fair. There are some minor grammatical errors, but none that affect readability.

I myself have never heard of any of the programs used in this e-book, or thought about doing this.

Just wanted to point out when you said I did not go into too much detail on some parts. It's because unlike other ebooks all buyers have the opportunity to join the private skype group where I do frequent Q & A's and lessons going into even further depth on topics on the book + teaching you new topics/twists. Although the detail and depth I go to in the book is more than plenty to succeed and make money but for those wanting even more I give it to you for free haha

Quality [8/10]

The OP does not go into as much detail as I would have liked, but he does provide enough for the Buyer to be able to grasp the concept. Skype support and custom group was also offered which is a plus.

Ease Of Use [10/10]

This eBook is relatively easy to follow, and you can't mess this up. He spells out the base process for you to build upon You don't even have to build upon it to start you can just use what he has written.

Layout [8/10]

Has screenshots and such, though nothing too special.

Grammer[8/10]

Grammer is decent, few missing "," here and there. You wouldn't notice any of the mistakes unless you're actively searching for errors in his EBook.

Originality[10/10]

Only reason I know of this is partially due to my monitoring of MLMs'. I have yet to see another HackForums user hint at using this method. It has the potential to give you Light to Medium income (1USD/D to 150USD/D). Though with perfection your windows are limitless.

This eBook + support + possible profit = worth its price. The concept its self is a good read. This is not an AMAZING eBook nor is it horrible, it's simply unique and " Above average".

Received a vouch copy from owner and here's my honest review:

This is a unique method, never heard of it or seen anywhere. So it's original and I guess it's a bit fresh/new.

The e-book is very simple and easy to read, with no annoying terms so you can get the juice without fatigue yourself. Also the layout and the fonts/images are really cool and relaxing to human eyes.

In conclusion, if you have a brain, will to work and 14\$, I advise you to go for it. However, I have to say that the whole project is based on the pyramid scheme. If you don't know what is it you better google it but I can give you my experiences within a few words. In all pyramid schemes, you need to climb up fast and be one of the first guys. If you don't, you will never make any good money but only pennies. So you either buy it now or you go for something else, cause this is how pyramid works. Good luck with sales!

Wolflord - November 25, 2014, 10:44 am

OP has provided me with a review copy, so here's my review:

Layout of ebook: 9.5/10

The ebook has a really solid, put-together look that makes it seem professional as well as easy to read, it doesn't have spelling/grammar errors, nor does it have tangents or any unnecessary inserts, it gets to the point and stays on topic.

Ease of use: 8.5/10

This ebook is fairly easy to use to be honest. It's a good method, however, it requires that you be able or willing to utilize referrals, as in to get people interested and clicking your link/doing something at that link. I don't want to give away what the method is, obviously, but it can be rather intimidating if someone has no experience in this sort of thing, and while there is a decent tutorial/advice column to help out, it's still rather daunting for people who are new to these methods.

Originality: 9/10

I personally think it's a great method when it does work, and the tools provided are excellent for people who know how to utilize them. I personally haven't ever seen this method before, though I admit to not frequenting ebooks, I doubt I'd find it even if I did. It's a solid way to earn cash, if you have the means to follow through.

Overall: 9/10

To some the rating would be lower and the ebook would be less useful, while for others the rating would be higher as they can utilize what's inside. I think the ebook is a great method, and can earn people a lot of money, especially on HF where spreading links/traffic is a fairly common practice. However, what keeps this from being great for everybody is the amount of work that you have to put into it if you don't have anything already set up or started in terms of getting traffic/people to do what the ebook wants them to do, and it's the sort of work that can be very confusing to people who haven't done it before.

That being said, if you're not one of the new people and you have experience, I would heavily recommend purchasing this ebook, as it WILL get you profit if you try at it, because methods like that are absolutely excellent when executed correctly. However, if you are new, I advise you to think it over and maybe do a bit of research on your ability to get traffic to a site, and buy at your own risk. Not saying don't do it, but caution is advised.

Setting the price to \$14.99 IN 1 HOUR NOW IS YOUR LAST CHANCE TO GET A \$9 COPY!

eastanbool - November 26, 2014, 12:27 pm

I've got a Vouch Copy from Yous.

Here's my honest Review:

Grammar: 10/10

I didn't find any mistakes, probably because I don't care about it, because if you can read it without problems the grammar shouldn't matter.

Layout: 9/10

Nice Layout which makes it easier to read it.

Originality: 10/10

I've read more than 300 eBooks and I have not seen this once.

Easy of use: 9/10

It is pretty easy, at the beginning you have to work a bit, but later this whole method can be autopilot later.

Overall: 9.5/10

This method is actually unique and can't be saturated in my opinion. This method WILL make you

cash if you take action, if you don't take action no eBook will make you money.

Regards ?

Yous - November 26, 2014, 2:13 pm

Price is now \$14.99

Thank you for all those who have bought so far =D

P?ris?m - November 26, 2014, 7:12 pm

I have honestly been blown away by the originality of this method. There is honestly very little chance of over-saturation. Be warned you do have to work, but the money seems really great for the amount of effort you put in. The support is also really really generous, all throughout the e-book he offers help time and time again through his skype. Honestly, after the initial effort, the method is 100% autopilot.

10/10 Do not hesitate to buy, the sooner you start, the better.

Just purchased the eBook. I've read it and this is my opinion.

The eBook is really simple and great, it takes a good amount of effort but after a while you'll be making a great income on auto pilot.

This has no limits. You won't regret buying this eBook.

I recently purchased this ebook and to be quite frank, it blew my mind. It honestly has opened my mind up to new opportunities that I can sense will help me out in the future. I'm in the process of setting up this method now and to be honest I can see it earning me upwards of \$500+ in my first week on autopilot. Huge vouch for Yous and his HQ method.

Thank you Yous for the copy and here is my review!

Grammar: 10/10

No spelling mistakes as far as i can see, and the method is well written and detailed.

Layout: 8/10

An amazing layout, which also benefits you to understand the method more clearly.

Originality: 10/10

I haven't seen any ebooks with this method, the method is actually really clever.

Easy of use: 9/10

Takes a bit of time to set up, but really clear and simple instructions (even a 11 year old could understand).

Overall: 9.5/10

I would highly recommend this ebook, i am telling you right now that this ebook will make you money, and it will make you a lot of \$

Just got a copy of this book and I want to leave my honest review.

A quick tl;dr, this book is worth WELL more than what he is selling it for, and you are guaranteed to make your money back if you put in an hours worth of initial start up time. Actually you will make way more than your initial investment.

Yous wrote a really amazing method here, and lists out all the steps needed to start earning you money. If you are smart enough, you will be able to set this whole method up on auto-pilot, and watch the earnings roll in with little to no work.

He provides you with all the necessary sites AND INCLUDED customer support if you need it...which you won't since he wrote the book so damn good.

Seriously if you are looking for an ebook to buy where you will ACTUALLY make money, than this is the right ebook for you

Thank you YOUS for the opportunity to review your piece of work!

Just received a review copy of this e-Book. Before I begin my review, I'd like to remind everyone that I am in no way affiliated with the owner of this e-book. I do not communicate with him outside this thread, nor have I ever/or will I ever leaved a biased review. My review for this ebook is 100% legitimate, and If I don't deem it worthy to be sold on this forum than I will easily point it out.

Now onto the e-book. This e-book has tons of content. The method portrayed on this ebook, I have seen before, but this user goes really in-depth and gives you twists and tricks you can apply to make the it better. Over-all this is a money making ebook. You can make A LOT of money with this e-book if you put the time into it. This e-book is not one simple method, the writer gives you 4-5 ways you can use this method to achieve maximum earnings so I definitely recommend it.

Kinguin - *October 3, 2015, 5:15 am*

I've received an vouch copy of this product, and I will be reviewing it for a while, and I've seen this method before, but this E-book, gives that method an amazing improvement. I'm 100% sure that if you buy this E-book, you'll make your money back within a while.

There's no requirements for investments, but I'd highly recommend you a small investment of \$2-3, although it's not needed. The method is also typed in a high quality way, so the reader can understand it in the best way possible.

Also, if you need any support with this E-book, Yous are always ready to help you over Skype.

Overall, I'll rate this E-book an 10/10, for the quality, the effort put into this E-book, and the easy way to earn autopilot money online.
