GenericSkid - November 22, 2014, 7:02 pm

Dat aliased MS paint font tho. Also, you may want to look for more than a few recent posts.

<http://lordpankake.bitbucket.org/vbthemes.html> - More themes

- Searching the section for "Source"
- Searching the section for "Tutorial"

And if you want a good selection of HQ threads, just check [this guy's](#) posted threads.

Seriously tho. Dat aliasing ([Click to View](#))

Rhyno - November 23, 2014, 6:11 am

well can i use the one you made? since I do suck at GFX and photoshop

GenericSkid - November 23, 2014, 10:42 am

Sure, and what did you make your original in? You probably just mised a setting for aliasing.

Rhyno - November 23, 2014, 12:32 pm

I think you had AA set to "none".

AntiAliasing ([Click to View](#))

Getting pretty off topic here now, so here's some VB stuff:[LiteDevelop - Lightweight and open source IDE](#)

[VirtualNet - Remove .Net Dependencies](#)

[Dynamic API call + Anti usermode hooking](#)

[Client Server Applications - Serialization, Headers, Encryption, File Transfers, etc!](#)

[Global Hooks \(Mouse, Clipboard, Keyboard\)](#)

[PageControl v1 - Animated sliding between pages](#)

[\[OpenSource\]\[TCP/UDP\] Secure Socket Protocol](#)

[DotNetResolver 3.3.0.0 - .NET Decompiler](#)

[ListView Grouping Example](#)

[TabControl Designer](#)

[The 'Real' Binder \[Tutorial\]](#)

[Modern Crypter Source](#)

[\[Open Source\] Auxilium](#)

You're not leet, so you won't be able to edit your post after 48 hours.

Achievement Hunter - November 24, 2014, 2:58 am

Nice compilation I can see this going well.

Just need some more in!

Thanks that you used my Calculator Source.

I'll make some programs/sources for you.

Aeolus - November 24, 2014, 4:08 am

Nice Collection! Enjoy the Green apple!
