K I T - November 24, 2014, 6:27 pm

I'm new as well and was quite happy to see this forum section. xD

I'm a big fan of some newer animes like:

Parasyte
Akama ga Kill
Tokyo Ghoul

Also a fan of:

Sword Art Online (ofc)
Psycho Pass

One of my all-time favorites has to be Deathnote though.

I'm actually fairly new to Anime, I've only been watching it for maybe a year now. xD

Nice, I've yet to watch Parasyte or Akama ga Kill but they're both on my Plan to Watch list. I've just finished Tokyo Ghoul along with all 143 chapters of the manga, absolutely amazing and emotional.

I've also watched and enjoyed SAO and am half way through Psycho Pass. In fact for SAO I recently got back into it and now I have to wait 4 days for the next subbed episode. ?

Oh and lastly, for Death Note... that's an amazing anime, but I disliked the last episode. Without spoiling it for anyone else, I feel Kira was dealt a bad hand.

I'm honestly not a manga reader except for Nana though that's mainly because I got so sucked into the story watching the anime, I could not handle how the anime ended. xD That's more of a 'girly' anime I'd say though, probably not something you've seen haha. It's also over 14 years old now.

I hope you're watching the Extended Version of Psycho Pass that recently came out! I actually re-watched Season 1 after the Extended Version came out. Not that you're missing too much if you're not.

As far as Death Note, I honestly felt it started going downhill a bit halfway through when L got replaced, and ya I wasn't a big fan of the ending. It's like they just had to end the anime quickly. Over-all was still great though. - I think if I read another manga it will be Death Note. Most of my 'reading' goes into comics like Deadpool though. xD

If they had made the ending awesome then it would have been an amazing anime.

It still is, but I don't watch the 37th episode for that reason.
I consider the series ended on 36th.

Ikaros - November 25, 2014, 12:36 am

I'm going to go with Heaven's Lost Property :)

jasont20015 - November 25, 2014, 5:35 am

In my opinion Sword art online, Haven't watched alot of anime tho. Mirai nikki and anohana were pretty good too tho, but preferred the whole game thing that SAO had :^)

Taiga Aisaka - November 25, 2014, 5:39 pm

I'm watching sao 2 now its kinda good but it feels off because of the guns (idk if that's a spoiler?? so sorry if it is ;_;).

Levi - November 25, 2014, 5:49 pm

Not much of an Anime person, But I fucking love Angel Beats

Kouichi - November 27, 2014, 6:37 am

I've seen a lot of anime, and I'll probably get hate for this since it's mainstream, but Bleach is probably my favorite. I'm an active weeabaggot here but still, Bleach is my favorite. It's what actually got me into anime and has rarely bored me. I've seen all 366 episodes and I'm currently following the manga. Fuck you mainstream haters.

Dare I say Boku no Pico is my favorite. The pure artistry of its visuals can only be compared to those of Leonardo Da Vinci's finest works. The soundtrack of which quality is comparable to the most exquisite of the modern world's symphonies. The enthralling plot development which is essentially the Shakespearian literature of our time. The well thought out character designs whose realness and relatability astounds all. Boku no Pico is obviously a godsend anime, a prodigy, a beacon of light in the darkness of now. It is truly a 10 out of 10.

Steins; Gate.
