Hi,

Profile: <https://hackforums.net/member.php?action=profile&uid=1959208>

Thread: <https://hackforums.net/showthread.php?tid=4425517>

Proof:

So basically, <https://www.sendspace.com/file/1fhkhh>

If you use SAE to look at the source, you'll see its totally fake, it has nothing other than form, doesn't encrypt anything nor was it meant to.

I rep'ed him saying:

"Neutral (0): His crypter is totally fake, to make people do his survey, don't do it!"

He, in return PM's me saying:

[img]http://s28.postimg.org/720zfq4z1/Screen_Shot_20141124011743.png[/img]

In fact the crypter is up for anyone to download,

There's a thread from another member showing that its fake, I don't have the thread, but if you search you'll find it.

I just wanted to let everyone know not to do his survey, its fake.

?
