I am in a Worldhistory and my teacher has history related funny/meme pictures so I made this for her. What do you guys think about it? Haha Sorry if you dont find it humorous.

Caliph - Caliph or khalifa is a title used for Islamic rulers who are considered politico-religious leaders of the Islamic community of believers, and who rule in accordance with Islamic law. A state ruled by a caliph is a caliphate.

I added his afro, his tatoos, glasses, and the blond dye in his beard. Haha it suppose to be more on the side of a "caliph" but I know what you mean :)
