Thread: [\[ TUTORIAL \]2 Simple methods to earn money ! \[Methods in thread , no need to PM.\]](#)

Payne - November 25, 2014, 10:45 am

## Introduction:

Hello ! My name is Samed, also known as "Spazie" here. I am here to give you some guides on how to make some money. Have fun reading my guide. ?

## Guide #1

### Requirements:

Internet connection

MyLikes account

Facebook Account (doesn't matter if it's your fake account or real account.)

Let's start, shall we?

Step 1: Create a Facebook account (If you don't have already)

Step 2: Create a MyLikes account. (Use a real e-mail, confirm needed.) (Publisher account, not advertiser, remember.)

Step 3: Log in on your Facebook account and join big groups such as Cristiano Ronaldo fans such as: / If pic does not work, click here: <https://gyazo.com/863700d04efe8da48c65dbbe4bbbd6f2> - In the screenshot, you can see it has 10k+ members. That is an example of a big facebook group. Find and join on five or more groups like that, and wait to they accept you in the group. (Usually doesn't take more than 24h for me.)

Step 4: When you got accepted for some of those groups, now it's time to log in to MyLikes.

Step 5: go here: <http://mylikes.com/social-publishers/campaigns> and click on "see campaigns on likes.com". Now you choose the best campaign to get more click when you are gonna share them on facebook. So I prefer you to choose campaigns with sexy looks or good looking bodies.

Step 6: When you have choosed a campaign, it's time to click "share", then click on "Get link", a facebook button will pop up. Click on "share on Facebook". Now you log in to your facebook account and now theres an option you can click on: "Share it on groups"

, "share it on" "Share it on your facebook status" etc etc. You pick "Share it on groups" and you write the big groups name you've joined before. Now you just wait and ur first earnings will already pop-up withing 10 minutes.

## Guide #2

### Requirements:

Investment (\$20 is enough)

An account on a PPD site. (Doesn't matter which one)

Brain of course, hehe.

Let's start, shall we?

Step 1: You make 3 .txt files and write random "PIN" numbers. Here is an example: - If picture doesn't work: <https://gyazo.com/105301b31cdd48f469c1e5fcd5bc6ce8> - That was an example, make 3 of these (Don't do same PIN numbers on every txt file.)

Step 3: Put all those 3 .txt files on the PPD site.

Step 4: Create an account on: <http://www.clickchores.com/> or <https://microworkers.com/> (I feel more comfortable with Microworkers.)

Step 5: Make a post on microworkers or clickchores.

Step 6: Make the title: I will pay you \$0,50 if you download these 3 .txt files.

Step 7: Here you write about what they are gonna do and give them the link to download the txt files etc. etc.

Step 8: Ask them "What is these .txt files saying?" To a proof they've downloaded it. This was why we had to make write numbers on txt files.

Step 9: When they've done theres job and downloaded 3 of your txt files, be kind and pay them there's \$0,50. You are making much more.

THE END:\*

I hope you've liked my guides/methods on how to make some money online. Please be kind and say thanks, because that will make me smile. ?

I only see 1 problem here which is why i dont think this will work.

Microworkers do not accept PPD links and websites and they will not approve your campaign.

Have you worked around their manual campaign approval ?

I have tryed clickchores. Click chores do not accept sharecash, they didn't mention any other PPD sites. I used bit.ly [WARNING: potentially infected] aswell. Clickchores earned me \$50, only tried it once.

**aliciousness** - January 15, 2015, 2:05 pm

The facebook method is a great method(already made like \$.20). The hardest part is finding the groups. I recommend the humor groups since alot of the stuff on mylikes are related to humor

**knuffelbeer** - January 16, 2015, 7:02 am

Mylikes banned my account for the first method. What to do now?  
Can I make a new account with another mailadress?

**wered** - January 16, 2015, 3:58 pm

Thanks, sorry to say I got banned following guide #1 on mylikes.com. Anyone knows why? Posted in random groups with a new fb acc.

**vaan** - January 16, 2015, 4:28 pm

**RoXSaida** - June 25, 2017, 2:21 am

**gdz\$** - June 25, 2017, 5:32 am

Thread is extremely old and outdated. You can use any CPA site with email submits only to get leads, but you won't get as many as alot of people on facebook are aware now and do not click so you will not get much conversions.

**Vladimirovich Putin** - June 25, 2017, 5:46 am

Does this still work ? i see many threads here outdated

**itsmorte7** - August 3, 2017, 2:12 pm
