Thread: [\[TUTORIAL \] Monetizing For Dummies](#)

nhankpham - November 25, 2014, 4:01 pm

Part 1 - Introduction:

Hi! I'm nhankpham, and I've written this extremely detailed guide to show you how to start making money online. This isn't going to earn you a living, but you'll at least be guaranteed some money.

I recommend adding nhanfromtarget on Skype to join my monetizing/cracking/hacking/programming/gaming group. We discuss money making methods and help each other out.

Well, let's cut to the chase -- shall we?

Part 2 - Beer Money:

These are some sites approved by me.

SwagBucks :: <http://swagbucks.com> :: Earn with surveys, polls, tasks, special offers, coupons, swagbuckstv/tvmobile, games

Bing Rewards :: <http://bing.com/explore/rewards> :: Do dashboard tasks, search

Amazon Mechanical Turk :: <http://mturk.com> :: Different tasks requesters want you to do for money

Slicethepie :: <http://slicethepie.com> :: Listen to a song for 90 seconds, review it, and get paid

Part 2.5 - Sites to avoid:

Bitcoin faucets :: Most beer money sites pay pretty low, but don't bother with these. Who the hell wants 7% of a penny?

Neobux :: It's a really popular site, but a pyramid scheme. Avoid it.

Part 3 - Do what you love

Alright, this is going to be pretty huge -- but the upside is that these are all well paying websites and all you have to do is what you are best at.

Part 4 - CPA

What is CPA?

Well, kids, CPA is "cost per action". It's a way for advertisers to pay for a specific action -- a click, form submit (newsletter signup, registration, etc.), or an impression.

You will be needing a CPA network, an offer to promote, a way to promote it, and a way to double your cash easily.

Make a professional looking GMail account (for example, JohnSmith@gmail.com)

Sign up as a publisher for AdWorkMedia at <http://adworkmedia.com>

Choose an offer

Promote that offer everywhere where it is related. For example, if it's coupons, I would go to a coupons forums.

Spread your offers EVERYWHERE

???

Profit

Part 5 - Finale

I really hope this tutorial has helped you in your monetizing ventures. If not, add me on Skype at nhanfromtarget and I'll teach you how to do everything.

We're slowly changing things around and I'm glad you found it helpful.

Good idea to make a newbie guide but I won't define this a guide to be honest, it's more of a "Recommended sites" and it could be just the list you posted above. Or it could be an invite to join your Skype group but not really a guide.

Part 1 - Introduction, ok.

Part 2 - Recommended sites, ok.

part 2.5 - Sites to avoid, ok.

Part 3 - Recommended sites, ok.

Part 4 - CPA definition and really generic steps, ok.

tl;dr - I don't see the guide, just recommended sites and a poor CPA definition.

You're correct, but do you recall what this section looked like a week ago? This is huge leap forward even if its "just sites" though.

It's full of real businesses that pay for skills plenty of HF members have.

So it's really a tutorial. It's tutorial "How not to ask for monetizing method and use your existing skills to profit" ;)

Not really, linking sites is not a tutorial. Setup the whole thing it's a tutorial.
