You giving vouche copies? :). Would be interested in one.

Quality: 9/10

Very interesting method and written in detail, you can't go wrong with this.

Originality: 10/10

Never seen this method before and with the huge ammount of Stealer ebooks that's quite something.

Ease of use: 7/10

It's not hard to do but it can be tricky, which in my opinion is good in a way.

You need a few things but it makes it look more like a normal CSGO day than someone trying to infect you.

Grammar: 10/10

As a non-native English Speaker I'm not really good to judge on this but I did a quick check and didn't find anything.

Overall: 9/10

Very Unsaturated method, you could easily cash hard on skins of you do this.

I recommend getting this asap since not many use this method.

Good luck and thanks for the Vouch Copy.

I seriously think this is a pretty easy way steal inventory, if you capture the right moment for this, this can work out really well, I would maybe even fall for this if I wasn't thinking straight on the day I

really recommend you to buy it!

I don't do long paragraphs for a Steam stealer method that's why it's quite short the review =)
