Thread: [I'm bored. REALLY bored.](#)

Graphiix - November 26, 2014, 6:42 pm

So I'm bored as hell, like bored to the point of just staring at my desktop screen.

What should I do? I can't go outside, it's snowing and it's late at night. I don't feel like watching anything. I'm sick of PS3/League right now.

I need ideas guys. Help me.

See how long you can watch porn before you have the urge to fap or just keep fapping and when you're about to finish stop and move onto the next vid

Gamamaru - November 26, 2014, 6:44 pm

Go outside and do something. Buy a new game. Start a new project.

Nostril - November 26, 2014, 6:44 pm

How about, PM me your Skype if you wanna join this call. About to prank call with some other HF members.

That's what I do most of the time though, and I'm sick of watching Twitch.

Read a book? You can read up on a subject you like/want to learn about like how servers work or you can start to learn Java or Python
