Thread: [\[PSN\] How to Deactivate ANY account](#)

nondescriptoldie - November 27, 2014, 11:54 am

Hello guys! I am going to be teaching you guys a method on how you can deactivate any account. I am not guaranteeing that this method will work and also don't abuse by using it on cracked accounts.

Method:

Go to this [Link](#)

Create a Chat under PlayStation Network and then PS3/PS4 and none for the "tell us more about.....".

Then wait for the chat and tell them a story. EXAMPLES:

The old my "cousins" account/

The "my account was hacked method"

This works almost 70% of the time and repeat and try to get another person in chat if it didn't. ?

Hope I helped you guys!?

Do you need an email to give them or would the screen name be sufficient?
