Thread: [Change your mindset... Become a success seeker.](#)

Veezon - November 27, 2014, 1:48 pm

Stop looking to make little money. Aim for high and you will achieve high if you want it.

Build something that you will be proud of and monetize it. Let's say for example you were an application developer... Fair enough, you can use your skills to develop for other people and make money but why not create a game changer? Why don't you create something that will make YOU money, not your clients. For example, you can brainstorm for ideas, ideas on what could make you rich... My personal opinion is that applications that have something unique in them that can make socializing with friends easier are the ones that will be the most successful, and that is what the app that I am releasing soon is all about and I have spoken to numerous HF members about it and all have been genuinely really impressed.

I hope that everybody can begin to change their mindset and allow themselves to become wealthy.

Still think that this thread can prove useful to some.

ivkobrutal - November 28, 2014, 6:29 pm

Send me a PM please, or give me your skype name or something. Ive been thinking what I can do for a long time, and I still have no idea, I am open if you have some ideas for the little money too, because after two years searching and thinking, I really think that I can't make a lot of money just like that...
