Hello! My name is SuperFrench and today I will be reviewing Cash infinity

Originality: 10/10

I've never seen this method anywhere and wouldn't of known how to anyway!

Ease of Use: 9/10

This method is very easy to use with very minimal effort, Every step to get bank is given , which means if you can read and follow steps, you're all set to start earning as soon as you read the book!

Grammar: 9/10

English isn't my primary language as you can tell by my name , but i'll give it a 9 as i might have failed to spot grammar errors, but it's really well written and is REALLY easy to understand and read. Best ebook i've read as of yet.

Overall: 9.5/10

Because i'm 100% going to start using it RIGHT NOW and will post my earnings soon as this is just genius and wow.. I really appreciating the fact that i received a review copy.

Majestic definitely deserve a big vouch for Cash Infinity. As explained, your earnings can only be HIGHER weeks after weeks!

(Nov 27, 2014 09:08 PM)DFWi Reaper Wrote: [\[CITE\]](#) This is my review of Cash Infinity

Quality 10/10: As usual Majestic12 created another beautiful ebook. The color scheme is literally perfect, the flow is great, there are pictures that help with the steps and a large easy to read font. The ebook is 22 pages long vs the ONE to TWO page ebooks I've recently purchased.

Grammar 9.5/10: Great grammar throughout, only a few mistakes that I could see. But I'm basing it off American standards of grammar so not sure if that makes anyone care :P

Method 8/10: The method isn't really new per say, but what makes this ebook awesome is the detail that he goes into is unparalleled. I've read hundreds of ebooks on this websites, both paid and free, but have NEVER come across this method before. So it's nothing you've read on here before, and I've been here since 2009. And it is SO easy to use.

Ease of Use: There almost couldn't be an easier method to do on this website in my opinion. The best part? Unlike the others, this one WILL WORK. Don't let this virtually free money get away from you.

Results 10/10: This WILL make you money, and will definitely make you thousands if done properly. I haven't done it yet but I will be doing it over the weekend without a doubt in my mind. His claims could seem outrageous, but they are 1000% possible!

Saturation 9/10: If you don't vary the method at all, it could become a bit saturated, but with just a slight change it will never be completely saturated. His bonus tips also help with this.

BONUS 10/10: Sometimes this is what makes an ebook worth buying, I've bought a few books where the bonus method is better than the actual method. But Majestic doesn't skimp on the bonus at all, he makes sure it makes the method 100x better.

Overall 9/10: The detail and thought put into this ebook is no different than his other releases. It's A+ quality in my book. If you're looking for a way to make some easy cash on near auto-pilot you definitely need to get your hands on this ebook. You will NOT be disappointed! Also, if you continue this method and expand on it you will rake in the doe. As stated before I will be starting this method this weekend!

(Nov 28, 2014 02:31 PM)001001 Wrote: [\[CITE\]](#) I have purchased this and set about 80% of it up lastnight.

Overall I feel this can be a great turnaround. You do need to invest a little money, but then you also need some time. Minimal for both tho before you can start to see income. I would say if you have time and the funds to buy then this can be another source for income. It also has the potential to continually pat dividends.

Over all 8/10 there is one thing I need cleared up but that's about it.

(Nov 29, 2014 12:04 PM)?osty Wrote: [\[CITE\]](#) Another great work by Majestic, DAMN!

Originality: 10/10

The method is not VERY original but his way is.

Ease of Use: 10/10

The set-up is easy as hell, you shouldn't have any trouble in the process.

Grammar: 10/10

Well I can't personally say something about this but, from my perspective. I couldn't find any spelling errors.

Overall: 10/10

This method will definitely make you alot of money without hard work. You can scale up easily.

Damn, that's alot of 10's. But that's my opinion. His other ebook also worked out well for me. I recommend everyone to buy it since it's impossible to get saturated.

(Nov 29, 2014 12:57 PM)DickWeed Wrote: [\[CITE\]](#) I have just received this e-book and I want to review it.

Quality 10/10: WOW! I was shocked by how good the quality of this e-book is. This e-book provided a lot of good information on making money online. It is definitely worth the €49 that Majestic is charging because you can easily make the money back by following this guide. If you are thinking about buying it, stop thinking about it and buy it now!

Grammar 9/10: The grammar is excellent, with just a tiny bit of mistakes. But let's be honest, does anyone even care about grammar errors when it comes to an e-book like this?

Method 9/10: I have tried a method similar to this one with no success, but thanks to the techniques outlined in this e-book, I can become successful! Once you read this method, you will just believe that it works because it just sounds so legit.

Ease of Use 8.5/10: It is fairly easy to get everything set up and ready to go. It does take some time and skills, but I am assuming everyone on this forum has that kind of skill and time. It takes a tiny amount of investment, just a couple dollars, so not much at all. It is worth it though, trust me, you will get a huge return if done properly.

Results 10/10: Don't buy this e-book unless you want to make a lot of money for a little bit of work. You will make money from this method if you just do it right. Don't skip over anything, everything

outlined is important.

Saturation 9/10: It is possible to get saturated, but use your brain and you can still profit. Another thing is, even if it gets saturated (not likely), you will still make an income every month from your past work. So basically getting paid every month for doing nothing after the initial set up.

BONUS 10/10: Majestic gave a free bonus at the end of this e-book that basically makes this method 10x easier and quicker to set up. He could've charged more for this, but he decided not to.

Overall 9.36/10: Majestic is just a great guy overall and he actually wants to help people make money. That is the reason why he made this e-book. This e-book is one of the best I have ever read about making money. So stop reading this review and just buy the e-book, you won't regret it.

As much as I love reading vouches and reviews... I don't think they count towards proving the earnings at all.

I feel like it should be 'forced' upon 'reviews' to actually use the method and post their earnings from the method as a solid foundation for their review.

Nevertheless, cool beans.

Yeah, its unlikely they will. As for myself, at a price tag of \$80USD its not worth it.

The reviews are legitimate reviews IF you read them. I clearly stated I would be posting my earning once I get them.

I have purchased ebooks that had 20 "earnings" that looked legit, only to learn they were made a year prior, or fake, or something else.... so "earnings" posted by others is a bad way of looking at it unfortunately :)

PM me if you'd like to talk more instead of bashing on here please!

I'm not bashing the product. Just the reviews which fail to stay anything about the method. Its in a shadow casted by a \$80 price tag.

It's great to see what its "not" about. I'm not asking for a full release of what the method is. Simply asking for some insight as to what it is about. E-mail marketing? Solo Ad swapping? What?

I do hope you post legitimate earnings from this method.

Maybe even explain it vaguely so others know what to expect instead of opening a black box and hoping for the best.

I've made \$10k in two weeks with other methods. Doesn't mean I made each each week. Just means it's possible.

How many ebooks on here that claim "make 500\$ a day!" that you can't even make 10\$ with? Stop trashing the thread :)

OP Answered all my questions in good timing.

Both OP and DFWi are in good standing in rep and history here. No scam reports or reports from them about getting scammed.

Op's answers to my questions are concise.

Probability that this ebook will make you your money back and then some is unknown due to the nature of the marketing beast.

I'm going to wait for DFWi to upload some earning proof(s) that this works before I jump into this

gamble.

Signed up for the competition for the ebook hand out but that ends on the 25th.... So maybe by then there will be more results from trustworthy buyers.

Op's answers to my questions are concise.

Probability that this ebook will make you your money back and then some is unknown due to the nature of the marketing beast.

I'm going to wait for DFWi to upload some earning proof(s) that this works before I jump into this gamble.

Signed up for the competition for the ebook hand out but that ends on the 25th.... So maybe by then there will be more results from trustworthy buyers.

Regards,

Glad he has answered all your questions! It may take me a bit to get up as I have other duties beyond this! Although I should probably dedicate more time to this honestly. But will try and get them up in a timely manner!

Good luck in the contest as well :)

Could you provide an ETA for when you think you'll be able to provide some evidence that this

Originality: 10/10

Never seen or heard of this before but its legitimate and pretty basic

Ease of Use: 9/10

This method makes sense and is very easy to follow and understand. There is a lot of tips aswell

Grammar: 10/10

Maybe one spelling mistake in the whole thing great work!

Overall: 9.5/10

Very good for starting off and if you continue with it there's lots of money to be made just getting some last minute things ready to start then I will upload a progress report

Very well made from a very respected person would suggest to others

Overall I feel this can be a great turnaround. You do need to invest a little money, but then you also need some time. Minimal for both tho before you can start to see income. I would say if you have time and the funds to buy then this can be another source for income. It also has the potential to continually pat dividends.

Over all 8/10 there is one thing I need cleared up but that's about it.
How much money (beyond the cost of the book) do you need to invest? For what service?

So this is my experience.

Quality: 10/10

The Ebook is amazingly created. The information provided in the ebook is great.

Ease of Use: 8/10

Set-up is easy. One part was for me kind of annoying.

Grammar: 10/10

Could not find any spelling-errors. This is not my native language but I understood it very well.

Overall: 9/10

With a small work from the end-users part there could be alot of \$\$ made with help of this ebook. Everything is provided in this E-book, there is nothing that I could feel was "go figure it out yourself and google it" which is highly appreciated.

I setup everything and I'm about to start it. Took me 1,5 hours from 0 to finish.

KwikTrip - December 11, 2014, 11:52 am

onestadium - December 13, 2014, 5:37 am

Quality: 10/10

Great format and presentation. The author takes you by the hand and step-by-step explains how to use this method.

This book is quite self-contained in the sense that you won't need to go off and learn stuff before being able to implement this.

Ease of Use: 9/10

Very simple setup and very clearly explained. I believe the author offers very good support for anyone having problems but I can't imagine how you could have problems with this. You should have this up and running within hours.

Grammar: 10/10

I'm a native English speaker and I presume the author is too. No errors stood out to me at all.

Overall: 10/10

This isn't a revolutionary technique overall but the implementation of it has enough novel aspects to make this worth it and especially for people who are newer to the game. You are as close to being guaranteed to earn as is possible as it's essentially a numbers game. If you put in the effort (not much!) you will make the \$\$\$, no doubt!

hellya - December 14, 2014, 11:14 pm

Quality: 9/10

it is really a good method and so easy and perfect for anyone even for a noob like me.

Ease of Use: 9/10

The steps are all explained and clear with the help of screen shots. You can set everything up in 1 hour to 2 hours. However, faced few problems not related to the steps and also are minor.

Grammar: 10/10

The grammar is just perfect and very easy to understand.

Overall: 9/10

This is a very good method for people who are new like me and wants to get on something fast to setup and to work. This is no blackhat or anything related to that. I think it will need some time to get something from it also later it needs some money to invest which shouldn't be a problem.

I have setup the whole method in 2 hours and waiting for the results. Will update later.

(Nov 27, 2014 09:08 PM)DFWi Reaper Wrote: [\[CITE\]](#) This is my review of Cash Infinity

Quality 10/10: As usual Majestic12 created another beautiful ebook. The color scheme is literally perfect, the flow is great, there are pictures that help with the steps and a large easy to read font. The ebook is 22 pages long vs the ONE to TWO page ebooks I've recently purchased.

Grammar 9.5/10: Great grammar throughout, only a few mistakes that I could see. But I'm basing it off American standards of grammar so not sure if that makes anyone care :P

Method 8/10: The method isn't really new per say, but what makes this ebook awesome is the detail that he goes into is unparalleled. I've read hundreds of ebooks on this websites, both paid and free, but have NEVER come across this method before. So it's nothing you've read on here before, and I've been here since 2009. And it is SO easy to use.

Ease of Use: There almost couldn't be an easier method to do on this website in my opinion. The best part? Unlike the others, this one WILL WORK. Don't let this virtually free money get away from you.

Results 10/10: This WILL make you money, and will definitely make you thousands if done properly. I haven't done it yet but I will be doing it over the weekend without a doubt in my mind. His claims

could seem outrageous, but they are 1000% possible!

Saturation 9/10: If you don't vary the method at all, it could become a bit saturated, but with just a slight change it will never be completely saturated. His bonus tips also help with this.

BONUS 10/10: Sometimes this is what makes an ebook worth buying, I've bought a few books where the bonus method is better than the actual method. But Majestic doesn't skimp on the bonus at all, he makes sure it makes the method 100x better.

Overall 9/10: The detail and thought put into this ebook is no different than his other releases. It's A+ quality in my book. If you're looking for a way to make some easy cash on near auto-pilot you definitely need to get your hands on this ebook. You will NOT be disappointed! Also, if you continue this method and expand on it you will rake in the doe. As stated before I will be starting this method this weekend! Any update on if it made you any money?

While his methods of reply aren't perfect, this user does raise a semi valid point.

The book, the investment required, the method (though that's a rather obvious reason), everything is very black box and magic bean selling.

It looks too good to be true, and the few users that have bought it so far haven't had any earnings. It looks "very" interesting, but some more in depth reviews (not the: omg its great i never thought this would be possible) would be quite helpful in getting stragglers and curious players to invest.

I dont get it though. You're hijacking a thread yet I can barely see any proof on your thread either? Clearly in FAQ it says "I dont guarantee, this is the most at 1 week", so you either cant read or you're butthurt for God knows what reason. Leave this thread alone, none can force customers to post proof, most of those who made money are off HF for now cause they arent regular here, joined few days ago, bought it and didnt bother to come back. Though it would slap you back in the face if someone does actually post a proof, so cut the crap please.

Awards prove shit, I "bought" mines to support HF, its not mandatory lol nor its proof of anything. I would've cleared the thread myself but for now I'll just report posts. If I see you harassing other members thread once again your post will instantly get junked.

I won this ebook through Majestic12's contest.

Aside from liking the origins of his username, I do like the ebook. I just gave it a quick read while doing my Calculus homework. I'll leave a thorough review soon.

Edit 1:

This is my General Review/Vouch for Maj12. I gotta hand it to him.

I will hopefully be implementing this soon. I just started my college classes back up so I duly apologize for the absence and leaving those interested in this proof of earning(s) if any type of mist. But, I can assure you that this ebook will help many people who are savvy enough to do some basic research on markets and using the tools and information provided to you by the ebook, can and will, make you money. However, duly note that it varies from person to person.

I'll hopefully start this up soon. When I do I will keep a journal of my venture. :)

Edit 2:

I've started to set this method up. This can take you anywhere from 45min to 24hours. It depends whether or not you already have a domain and hosting. :)

So far, I feel pretty good about this.

Edit 3:

I've set everything up and started using this method. Now it is a numbers and waiting game. :)

Edit 4:

I finally have everything working perfectly. Here's something for those of you who want to buy this but have some kind of concern.

This involves email marketing. Email marketing means you need email lists. OP/Seller gives you a great list to use. Niche specific ones too ;)

Its impossible to saturate them due to the fact that 1 well written email that goes through to them and speaks to the person who is already interested in what you'll be promoting will be more than likely to buy.

Don't want to use his list? The ebook comes with instructions as to where you can get your own emailing list! Literally, this ebook has everything you need to start.

Now that I finally have this set up and its working properly. I'm feeling very confident! :D

This is about e-mail marketing?

You do know spamming will get your host account banned right?
And if you're all using the same e-mail, rest assure you WON'T be getting any sales at all.

That's problem 1.

problem 2; don't even try this with jvzoo / warrior plus. Ban hammer straight off the bat!!

Ebook fully explains everything to the finest detail. I'm not here to ride anyones dick and praise them for a grade A fucking. However, while you're right that SPAMMING is not tolerated. However, the proper way to send emails to prevent that is fully disclosed in the ebook.

Hell, this is great for people starting out and those who already have an e-mail list. You can also take precautions to prevent yourself from getting your host blocked.

And if you do fail at that, then its your own fault and you pay a couple bucks to your host provider to switch out your IP and continue doing what you are doing.

Another option is to use an autoresponder service instead.

Anyway, enough free information. Email marketing is a viable income stream if you follow the proper protocols and dont send SPAMMY emails.

If you're interested in this idea of making money with email marketing, then this ebook is definitely the best place to start.

How can you prove that Cash Infinity is different from Naked Riches, and not a remake?

Majestic12 - January 20, 2015, 5:07 am

Cash infinity is in no way related to Naked Riches. You'll see that if you purchase.

DamienVC - January 20, 2015, 5:28 am

Thanks for answering my question, I'd be more focused on Cash Infinity.

1. Does it have any requirements (investment, blog, website, VPN etc.)
2. Does this involve any of these: Craigslist, Fiverr, Affiliate Marketing, SEO, CPA/PPD/PTC, Article Writing, T Shirts, Freelance, Auction Bids, Mobile Marketing, Video marketing, SEing, etc.)

Majestic12 - January 20, 2015, 5:33 am

Q. Do I need hosting, Domains or anything else?

A. Yes, you will need hosting and a domain. It doesn't require you to have a website or anything though!

Q. How much do I need to start with?

A. Hosting and Domain won't come to more than \$10. That's all you need. The Rest is included.

It involves affiliate marketing by default. But it can be used for CPA/PPD, Your own product, etc etc.

Regards

Well seems nice.

Can we earn more if we SEO it?

Majestic12 - January 20, 2015, 6:23 am

Nope - It does not rely on SEO, or building sites etc.

Hey quick question about this (if you are still selling). Will you need to get a new host often? Or can you stay on one account? This is blackhat correct? So chance of ban from webhost? Possible not to be?

IceLink - February 19, 2015, 12:18 pm

Is this method a legal way to earn cash or does it involve malware / spam / ...

Seems some of you have picked up a pirated and old copy. If you want help, feel free to purchase, and PM me your trans ID and Email.

This makes me cash every single day, it's a method that actually works, and will work for as long as people use the internet. Without my support you will most likely struggle.

I did not pick up any pirated copy, I'm inquiring as pre sales. Can you please answer my question if this is a blackhat method or not? You state this no where and I'm wondering.
