Thread: [\[2/5\] F-Secure Anti-Virus Real-Time Scanning Component Privilege Escalation](#)

Omniscient - May 30, 2007, 11:27 am

A vulnerability has been reported in various F-Secure products, which can be exploited by malicious, local users to gain escalated privileges.

Be sure to check if your system is missing security updates or have insecure applications installed:
http://secunia.com/software_inspector/

Feature Overview - The Secunia Software Inspector:

- Detects insecure versions of applications installed

- Verifies that all Microsoft patches are applied

- Assists you in updating your system and applications

- Runs through your browser. No installation or download is required.
