What would your super power be and weapon? I would like to control time, go back to the start of our universe. Slow it down and be able to dodge bullets, speed it up in maths:D I would have a small cane that could transform into anything I desired :D

Wbu?

Teleporting would be my power.

My "weapon" would be glasses that display the person I'm staring at's thoughts and weaknesses and personal information.

Have a nice day! ?

Super hero Power - extreme intellect and brain speed, with reaction time and though proses faster then light.

super hero weapon - The Infinity Gauntlet
