Thread: [Need 4 MyBB Passwords Decrypted](#)

Anonymous Haxor - November 30, 2014, 9:28 pm

I need 4 MyBB passwords decrypted. The passwords are being provided in this format:

password:salt

Here you go:

Code 58ee7638c57e783383b4be1b6afa51bc:lfr2JSV2
401da7f4941e854f22dadcab277b7ac3:dK95Fv7B
1217567f527d89df5526553f5d247faa:Q8uyLV03
3f42cc7ca655293f42ebc9d286435875:z2WVMarS

I'm not sure if this is even possible to do anymore, but would appreciate any help.

Please and thank you! :)

Please don't post in numerous places with the same hashes.

P.S. Go fuck a goat m8. We're not going to crack Hackforums member hashes on Hackforums.

This is great. I can't believe anyone would even think these were still good passwords.

Thnx for this message. I cracked one of them for him but didn't check where it came from.
Removed my post with it.
