Thread: [\[EARN \\$\\$\\$\\$\\$\]Free ebook on how to earn money by creating an ebook on how to earn money](#)

Hey guys, for a limited time, I bring you the exclusive & free ebook on how to earn money by creating an ebook on how to earn money. Some of you may be shocked but you can earn up to \$500 A WEEK!!!!

Due to the high demand, I've just embedded this exclusive one time offer ebook into the thread!

First google "Money making method" or think up something that could make money.

Second we need to make up some projected earnings. So I did the method and made \$20 in an hour once. So that must be $\$20 \times 24 \times 7 = \$3360$ A WEEK with our method.

Thirdly we need to write up the ebook making sure that we explain it well! Lets make it really large font so that we can say it's like 30 pages long as well!

The fourth step is to start making a thread in the marketplace. Make sure that your title has your utterly bullshit projected earnings on it and a bunch of special characters to catch the users attention

The fifth step is to get a fancy thread design showing how high quality your ebook really is.

The sixth step is getting all your mates to vouch for an ebook that they have never seen, and telling you how obviously high quality you are for making this amazing new money making method that will make members thousands!

The seventh step is to make sure you 'allow refunds' but hide clauses all throughout your thread and try find any reason to reject a refund that you possibly can.

Vouches

Some Guy Wrote:AMAZING EBOOK, MADE ME THOUSANDS

Some paid member Wrote:High quality member, dealt with on numerous occasions although I've never met him before he paid me \$5.

Some group member Wrote:This guy is in my group, vouch for his method.

Yes, this may seem like a bit of a troll, but I'm trying to get a point across for people to understand. If someone is selling a cheap method on how to make money, then it obviously isn't viable for them to do it.

We can rely on this method, thanks for the useful tip.

Vouch. This ebook is exactly what you need to scam.. shit I mean to make money selling an ebook that will 100% for sure work.

Autocorrect - November 30, 2014, 11:53 pm

Good point. It annoys me to read vouches from members who are very clearly friends with each other.

The following vouch is actually legit, if you've seen it on a thread that I won't link then you know who posted it.

Quote:Vouch for this user and his method! I personally haven't used it but I know it will make you thousands! Good luck with sales!

See the problem with that?"Vouch for this user" - indicates that they're obviously friends or the vouch was begged for.

"I personally haven't used it" - why the actual fuck are you vouching for it then?

"- but I know it will make you thousands!" - how do you know that if you haven't used the fucking ebook?

"Good luck with sales!" - why not say good luck to those buying? After all, the profit is designed for them and not the OP, right?

It's ridiculous, but people will continue to buy the shit. Ugh.

I am planning to write an eBook. This thread help me a lot. By the way, how to price the eBook?

You gotta make sure it's somewhere in between \$10-\$50. Make sure you don't make it too cheap or you'll get people thinking it's not as HQ as it is. You also should add two options

-> Your main option with the ebook

-> Your main option with the ebook + refunds (Just add like \$10 to this one).

Although you obviously should provide a refund if your ebook doesn't work, why not try con them out of an extra \$10 while you're at it :)?

Thanks for your questions on the Free ebook on how to earn money by creating an ebook on how to earn money.

It sucks because some E-books are actually legit.

The ones that promise "1000 DOLLARS A WEEK EZ" Are fake, they ruin it for the good ones...

I wish we could have some kind of policy that would test E-books to make sure they are actually legit.

Vouch for this method op. May i get a free vouch copy with premium support :)?

Yeah these are probably all the ebooks that are being sold around here... some of them might actually provide some good ideas on how to make money but only a small percentage and even then it's more like just an idea. It's a big gamble buying any ebooks that are being sold around here and most of them are so vague because the person who wrote them never even tried their own method.

Vouch! 100% awesome! Thanks a lot bro :)

mkwifeyy - May 1, 2015, 1:04 am

Unless I see new users or non upgraded users with not so much rep in the thread vouching that the ebook is the shit. I will never purchase an ebook from here.
