Thread: [Arkalys theme \[3 Controls\]](#)

Naywyn - December 2, 2014, 12:17 pm

Hello there, i created a sort of theme, since it contains only 3 controls at the moment.

Preview :

Controls :

ArkalysMessage.
ArkalysButton.
ArkalysGroupBox.

Link :

<http://pastebin.com/G3tscGM3>

Aristocles - December 2, 2014, 12:25 pm

The theme looks great, though the inspiration source is shitty as hell and can be flagged as advertising.

(Are you French ? It's written in French in your winform)

I didn't wanted to advertise anything, i'm just posting the inspiration. I can delete the link if you want though.

Yes i'm french.

{Haaan, et bien franchement tu fais du très bon boulot (que ça soit avec ce thème ou avec les autres) !}

I doubt adding more control would be a great idea, since the whole stuff fit perfectly with the normal Winform

Only3 - December 2, 2014, 1:51 pm

another theme for Only3 but not for long will need to change to ~

SaketSaket - December 2, 2014, 10:50 pm

Nice start. Try to add more controls ;)

Hawk HF - December 3, 2014, 5:24 am

I was disappointed to see that the Message control was just a disabled textbox. :(
It is a nice design, though. And its good to see more light controls.

Mr. Carter - December 3, 2014, 8:07 am

I like it, looking to see a few more controls and gonna use it ;)

SyyK - December 3, 2014, 9:44 am

Thanks for the share, definitely a nice design!

Please add some more controls, the design is worth it.

Thanks ;)

Mr. Carter - December 3, 2014, 9:57 am

Well I needed a fast way to add labels, here's a control I took the color off from the groupbox,
Code Class ArkalysLabel
Inherits Label

```
Sub New()  
    ForeColor = Color.FromArgb(111, 115, 106)  
    BackColor = Color.Transparent  
End Sub  
End Class
```

Oxfd - December 3, 2014, 12:15 pm

thanks for share, nice start. add more controls...
keep it up :)

Brokeos - December 5, 2014, 6:06 am

Je trouve ton thème vraiment pas mal ! Seulement il manque quelques controls ce qui est dommage
!
